MICHELL'S

"Highest" Quality

BULBS

are superior in every way to the usual quality offered, and when planted always afford complete satisfaction. They are planted on the *Executive Grounds* at Washington, D. C., and Harrisburg, Pa.; also in the public squares and parks of Baltimore and Philadelphia.

The above contracts are awarded to us always on the merits and past reputation of the quality we furnish.

We have again been awarded the contract to supply the Philadelphia Parks and Squares, also the Greenhouses and grounds of the Executive Mansion at Washington, D. C., and Harrisburg, Pa., with Bulbs for this winter and next spring's display.

We have thus far engaged (INCLUDING WHAT HAS BEEN GROWN ON CONTRACT ESPECIALLY FOR US) Bulbs amounting in number to five million three hundred and seventy - one thousand (5,371,000) for this year's sales.

What the *City Forester of Philadelphia* has to say about MICHELL'S HIGHEST QUALITY BULBS

"The 140,000 Hyacinths, Tulips and Narcissus furnished the city parks and squares of this city are superb in every particular.

"The coloring is intense, the blooms are of exceptional size and beauty, with strong, erect stems. This with the regularity of growth and the trueness to name and color, make the designs very effective. I am, pleased that the Department has awarded you the contract for next season's display.

Very respectfully, JOHN C. LEWIS."

MICHELL'S SEED HOUSE

A WORD ABOUT BULB QUALITY TO OUR CUSTOMERS.

It is with great pleasure we extend to our many friends and customers, this, our 16th Annual Bulb Catalogue, which we have tried to make more complete and better than any heretofore.

Possibly nowhere in America has quality been more paramount than here. Sixteen years ago our bulb importations were quite modest, while now we stand as one of the two largest bulb importers in America with bulb importations amounting to millions in number. This has not been accomplished by other efforts than to giving the best quality procurable at attractive prices. Every year our bulbs growing on contract in this country and in Europe are subjected to the most critical inspection, so as to ensure our customers getting the very best only. We solicit your order for this year with the assurance that you will be well pleased.

Brief Cultural Directions on a few of the Most Important Bulbs

HYACINTHS

Directions for Planting in the Open Ground.—This should be done in October and November, but they can be set out at any time, as long as the ground is open and the bulbs remain sound, but early planting always insures good root development and thorough establishment. The best compost for their culture is the following: One-third sand, one-third well rotted cow manure and one-third good garden mould; or, where the soil is naturally light, well rotted cow manure liberally intermixed is sufficient. Special care should be taken not to add any bone fertilizers, as they usually draw vermin. The beds composed of the above compost should be well dug to a depth of fourteen inches, and raised from two to four inches above the level of the walks. Care must be taken not to press the earth too firmly around and over the bulbs. After planting, rake the bed smooth, and after the ground has frozen tolerably hard in early winter cover with dry litter, leaves or coarse manure. If this be applied before freezing weather it renders the bulbs liable to the predations of field mice.

For Culture in Pots.—Prepare the above compost, adding, if possible, a quantity of leaf mould. The most favorable time for planting is September, October and November. The size of the pot depends on the number of bulbs planted in a single one; three bulbs in a pot of, say, six inches diameter make a rich, massive effect; one or two bulbs in each may be planted in proportionately smaller pots—two bulbs in each are very effective. When planted water them well, then bury the pots in the open ground to the depth of six inches for eight weeks, in which condition the preparatory root growth necessary to a vigorous development of their flower spikes is made. After this period take up the pots and remove them to a room not heated, but not so cold as to freeze. Being exposed to the light for the first time, they are, of course, very delicate. Care should, therefore, be exercised not to place them in the direct rays of the sun for two or three days.

For Growing in Glasses.—Single varieties are the best for this purpose, as they produce much more satisfactory blooms than the double ones. Place the bulb in the glass, which should be filled with water so it touches the bottom of the bulb, place them in a cool place, in the dark,

changing the water every ten days or two weeks; keep them in the dark from six to eight weeks, then remove them to the light. If then kept in a cool room they will produce very fine spikes.

A small piece of lump charcoal placed in the water will prevent it from getting foul.

TULIPS

For Bedding Out.—The bed should be formed of a compost similar to that recommended for Hyacinths; the bulbs should be planted about four inches apart and about five inches deep (close planting makes a much finer effect and prevents the flowers breaking off when swaying in the wind); they should then be covered with a litter shortly before the severe freezing weather sets in, and left in this condition until spring approaches.

For Pot or Pan Culture.—Plant about four bulbs in a six-inch pot or five bulbs in a six-inch pan, water thoroughly and then remove to the open ground or in a cold frame, covering with coal ashes; after they have rooted thoroughly they should be brought into a moderately cool room and gradually warmer; by bringing in a fresh supply from the outside every ten days, they can be had in bloom continually.

NARCISSUS

The double and single trumpet varieties should be planted in soil. For indoor culture, plant in boxes or pots, and treat similar to Hyacinths. Chinese Lilies and Paper White Narcissus, and the Polyanthus types, such as Grand Soleil d'Or, etc., succeed very well and are quite interesting if planted in water and pebbles, as one can watch their progress of growth. A small lump of charcoal prevents the water from getting foul, although changes of water are advisable.

CROCUS

A real show can be obtained from these tiny bulbs. They will bloom in a few weeks from time of planting inside. Place a few bulbs, or as many as the size of crock will warrant. In a short space of time the bulb will make a grand display. Planted out in the open ground, they bloom among the first of the spring flowers.

NAMED EXHIBITION HYACINTHS

Every year we have our most reliable grower make us a selection of the largest possible Hyacinth Bulbs to be obtained. He usually scours the entire bulb-growing district of Holland to find them. In past years they've been so sought after that we rarely have enough to meet demands; so order them early. We offer them in single varieties only, our selection. 20c. each; per doz., \$2.25; \$16.00 per 100.

AN UNSOLICITED TESTIMONIAL

GERMANTOWN, PHILA., PA.

The 25,000 bulbs I purchased from your firm last year were superior to those which I myself imported and grew under the same conditions, especially the **Dutch Hyacinths**. These I grew on contract. They were so satisfactory to my trade that I have already booked orders for next Easter. Kindly put down my order again for this year and increase it 50 per cent.

MICHELL'S CHOICE BEDDING HYACINTHS

Unnamed Sorts

In the following hyacinths we offer something very choice either for bedding or for pot culture. Where bedding of hyacinths is to be done in large quantity we can particularly recommend them on account of their low cost, the length of time they remain in flower, and because of their handsome effect.

FRENCH ROMAN HYACINTHS

Roman Hyacinths afford a continuous supply of bloom from early winter until late in spring if forced successively. They are very fragrant. The blooms are suitable for most any kind of cut-flower work; they also look very attractive if planted in boxes or pots and used for window decoration. They are not hardy, consequently will not do for outdoor planting.

MICHELL'S CHOICE BULB BED DESIGNS

We give below a few suggestions for planting some attractive 8 foot in diameter beds. We have numbered them and affixed a price opposite. All that is necessary is to order by number. We will send plan with the bulbs showing just how they shall be planted.

Note.—Bulb Beds should always be prepared so that there is a rise in the centre of about 8 inches in height, as otherwise the bulbs would not appear even when in flower.

HYACINTH BED PLANS

(Figured on planting 6 inches apart.)

Many prefer to use the ordinary bedding hyacinths for this purpose although we can assure all that it more than pays to plant the special bedding sorts which are named and offered on page 5. The trusses they produce are magnificent, while the design and effect is carried out in a perfect manner. We give prices for both the regular bedding and also the named sorts, so our customers may take their choice at the prices affixed. The color schemes are Blue, White and Pink.

TESTIMONIALS ON BULBS.

State Hospital for Insane,
Norristown, Pa., 1907.

The Lilies, Tulips, Hyacinths, Narcissus and other bulbs received from your house last fall have proven themselves all that could be desired. In the first place the bulbs were very large, and our outdoor display has been the admiration of all our visitors besides giving untold pleasure to patients.

HUGH M. HUGHES,
Gardener in charge.

Lansdowne, Pa.

The Tulips I bought of you last year bloomed with exceptional size, beauty and evenness. They were very attractive indeed.

DR. DEF. WILLARD.

Frackville, Pa.

The Tulip Bulbs I had from you last year turned out grand. I had the finest show in Frackville. The color and size of flowers was something magnificent.

JOS. SCHEAFFER.

MICHELL'S EARLY DOUBLE TULIPS

Double Tulips are used very extensively for forcing but are equally valuable for bedding purposes. They remain in flower longer than do the single sorts on account of their substance, although they do not make quite as fine a show. They should not be planted in beds with single tulips as they do not bloom as early as the single sorts. The number prefixed before the variety denotes the approximate height.

MICHELL'S LATE OR MAY FLOWERING TULIPS.

Nothing in the line of horticulture has received so much comment in late years as the late flowering tulips. A few years ago where only hundreds were sold, the demand has now grown to hundreds of thousands. They well deserve the popularity they have gained, for no other of the spring flowering bulbs can approach them for brilliancy, beauty and usefulness. Reading from the left, the above shown sorts are Bizarres, Bouton d'Or, Golden Crown and Bybloemen. The numbers indicate the approximate height. They are all adapted for cutting but not for forcing.

SEPARATE COLOR NAMED SORTS

(All single except where noted.)

- 15 **Blue Flag.** (Double.) A very pretty shade of violet blue, very odd, and should on this account be included in every collection. 5c. each; per doz., 50c.; \$2.50 per 100; per 1000, \$20.00.
- 18 **Bouton d'Or.** (*Golden Beauty.*) Color, a beautiful golden yellow; handsome perfect flower; grand for cutting. 3c. each; per doz., 30c.; \$1.60 per 100; per 1000, \$15.00.
- 24 **Gesneriana Spathulata.** A brilliant scarlet, with blue-black center. This is one of the finest late tulips in existence. 3c. each; per doz., 25c.; \$1.75 per 100; \$15.00 per 1000.
- 24 **Gesneriana Rosea.** Very similar in character and growth to the above; the color, however, is a rich, brilliant pink. 3c. each; per doz., 25c.; \$1.60 per 100; per 1000, \$13.00.
- 18 **Golden Crown.** Flower very large, of a pure yellow color, with a narrow border of red, excellent for bedding or cutting. 3c. each; per doz., 30c.; \$1.25 per 100; per 1000, \$10.00.
- 15 **Greigii.** Sometimes called the Queen of Tulips. Color, brilliant orange with center of yellow and black. 12c. each; per doz., \$1.25; \$8.00 per 100.
- 20 **Picotee.** (*Maiden's Blush.*) (See opposite page). Color, white with a distinct rosy border; the finest late tulip. 4c. each; doz., 30c.; \$2.25 per 100; per 1000, \$18.50.

Separate Color Named Sorts—Continued.

- 8 **Pæony Red.** Double scarlet, not quite as late as the other sorts; makes an admirable sort for bedding with Yellow Rose. 3c. each; doz., 30c.; \$1.50 per 100; per 1000, \$12.00.
- 21 **Rosalind.** A bright cherry pink, pure white at base. 4c. each; per doz., 30c.; \$2.25 per 100; per 1000, \$18.50.
- 18 **Shandon Bells, or Blushing Bride.** A beautiful carmine, red or pink, shaded creamy white, a very pretty contrast. 4c. each; per doz., 35c.; \$2.25 per 100; per 1000, \$20.00.
- 20 **The Sultan.** A peculiar shade of mahogany brown. 5c. each; per doz., 50c.; \$3.75 per 100; per 1000, \$32.50.
- 9 **Yellow Rose.** A pure yellow double sort, suitable for bedding with Pæony Red. 20c. per doz.; per 100, \$1.50; \$12.50 per 1000.

LATE TULIPS IN MIXTURES

- Bizarres.** A peculiar combination of colors, principally yellow ground with markings and stripings of red, white and orange. 3c. each; per doz., 20c.; \$1.25 per 100; per 1000, \$10.00.
- Bybloemen.** A wide range of shadings and combinations of white, scarlet, pink, scarlet and crimson. 3c. each; per doz., 25c.; \$1.60 per 100; \$14.00 per 1000.
- Darwin's** A most interesting class of late tulips, covering a very wide range of colors. The Darwin's are the most interesting class of late tulips offered. 3c. each; per doz., 30c.; \$1.75 per 100; per 1000, \$16.00.
- Single Superfine Mixed.** This mixture embraces almost every type of single late tulip and we can recommend them highly for planting in places where a fine show is desired. 3c. each; per doz., 25c.; \$1.75 per 100; per 1000, \$14.00.
- Double Superfine Mixed.** In all colors. Many prefer the double tulips as they last longer than the single sorts. 3c. each; per doz., 20c.; \$1.25 per 100; per 1000, \$10.00.

Single bulbs mailed free. Please add 6c. per doz. for postage.

PARROT OR DRAGON TULIPS

These belong to the late flowering class and on account of their peculiar markings and shadings, are much in demand. They are curiously curled and crested, as may be seen by observing the illustration below. They are fine for bedding and border planting, also useful as a cut flower, keeping well for some time when placed in water. They are very fragrant, and grow about 12 in. high. We offer first size bulbs only in Parrot Tulips, as second size rarely bloom the first year.

Constantinople. Orange scarlet, with black markings in centre. 3c. each; per doz., 30c.; \$2.00 per 100; per 1000, \$15.00.

Cramoise Brilliant. Deep carmine, flowers are very large with a star-shaped centre. 3c. each; per doz., 30c.; \$1.75 per 100; per 1000, \$15.00.

Gloriosa. A very showy orange and red sort, petal very broad, producing a mammoth flower. 3c. each; per doz., 30c.; \$1.75 per 100; per 1000, \$15.00.

Lutea Major. Very large, bright yellow, makes a handsome bed when planted with Cramoise Brilliant. 3c. each; per doz., 30c.; \$1.75 per 100; per 1000, \$15.00.

Mixed in all colors. This mixture is carefully blended and contains only the choicest sorts. 2c. each; per doz., 20c.; \$1.25 per 100; per 1000, \$10.00

TESTIMONIAL

The bulbs I had from you last year gave me the best flowers I've had since I've been in business, and that is saying a good deal. They were the best in all Lebanon and I was sold entirely out of Easter bulb plants two days before Easter. Here is my order for next year.

COLLECTIONS OF LATE OR MAY FLOWERING TULIPS

At the very low price we are offering these collections, everyone who plants tulips should have a number of them. These varieties are suited to cutting and decorating; the odor they impart to the air is also a splendid feature. (Greigii has not been included in these collections.) To order by number will be sufficient.

MICHELL'S DOUBLE NARCISSUS OR DAFFODILS

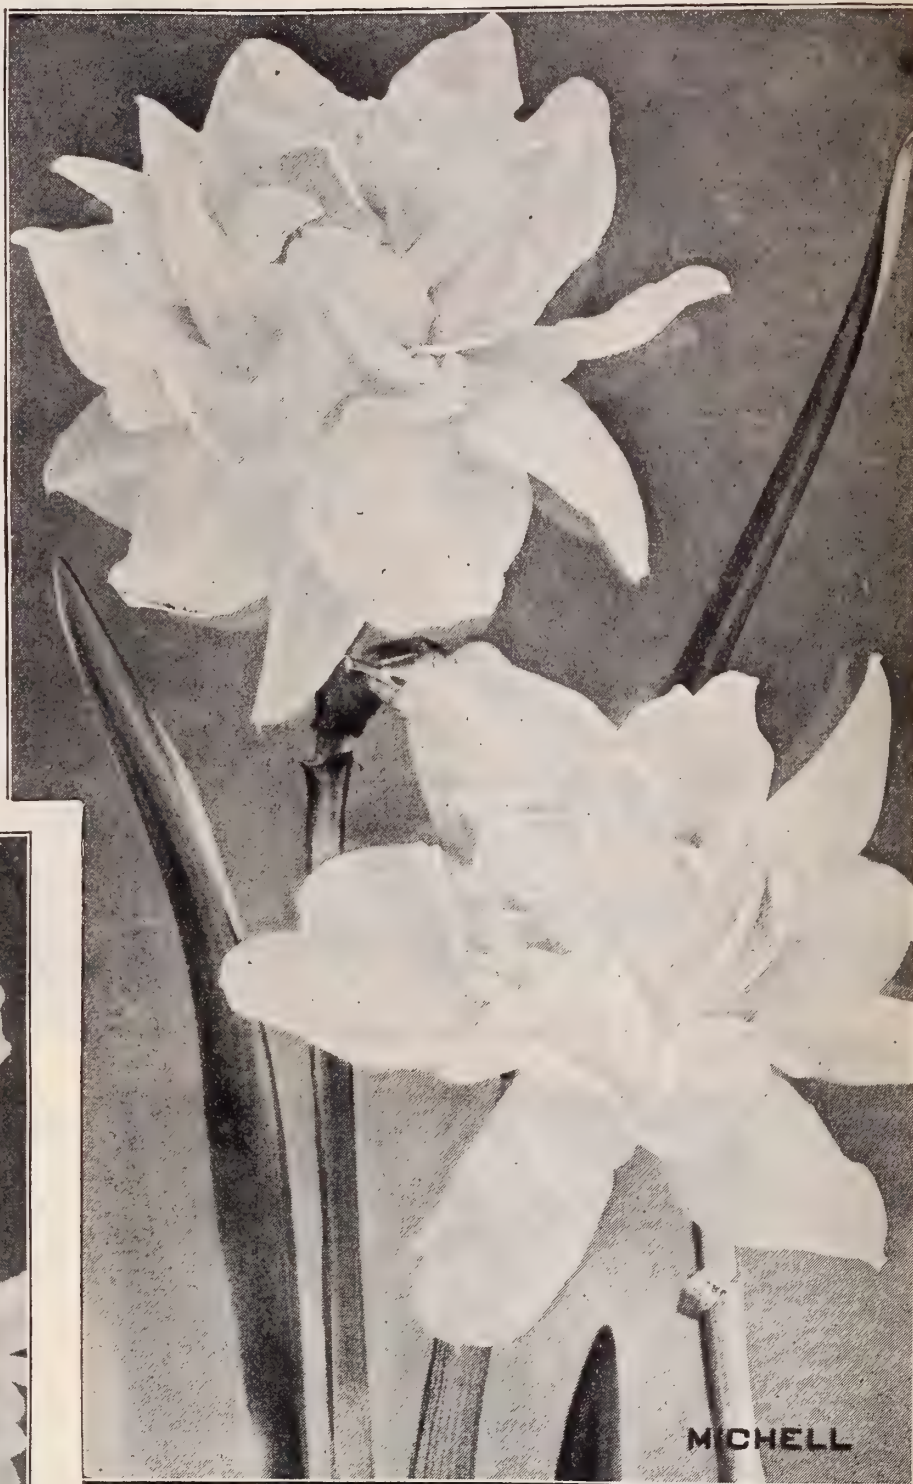

The Narcissus or Daffodil is becoming more popular every year. It is hardy in every way and thrives most anywhere. For naturalizing in woods and fields, nothing equals it. When once established they multiply rapidly and in a short time cover tremendous areas. They can also be used for forcing, for which purpose they are highly desirable. Plant in a pan or pot anywhere from 3 to 12 bulbs, according to size of bulb. After they have been forced and flowered they can be planted out doors for another year's bloom. We offer large bulbs only.

Alba Plena Odorata. A very sweet-scented pure white variety called Double Poets Narcissus; it flowers later than many of the other daffodils, and is not desirable for forcing. It makes a handsome show bedded among perennial plants and shrubbery; height about 15 inches. 3c. each; per doz., 20c.; \$1.00 per 100; \$9.00 per 1000.

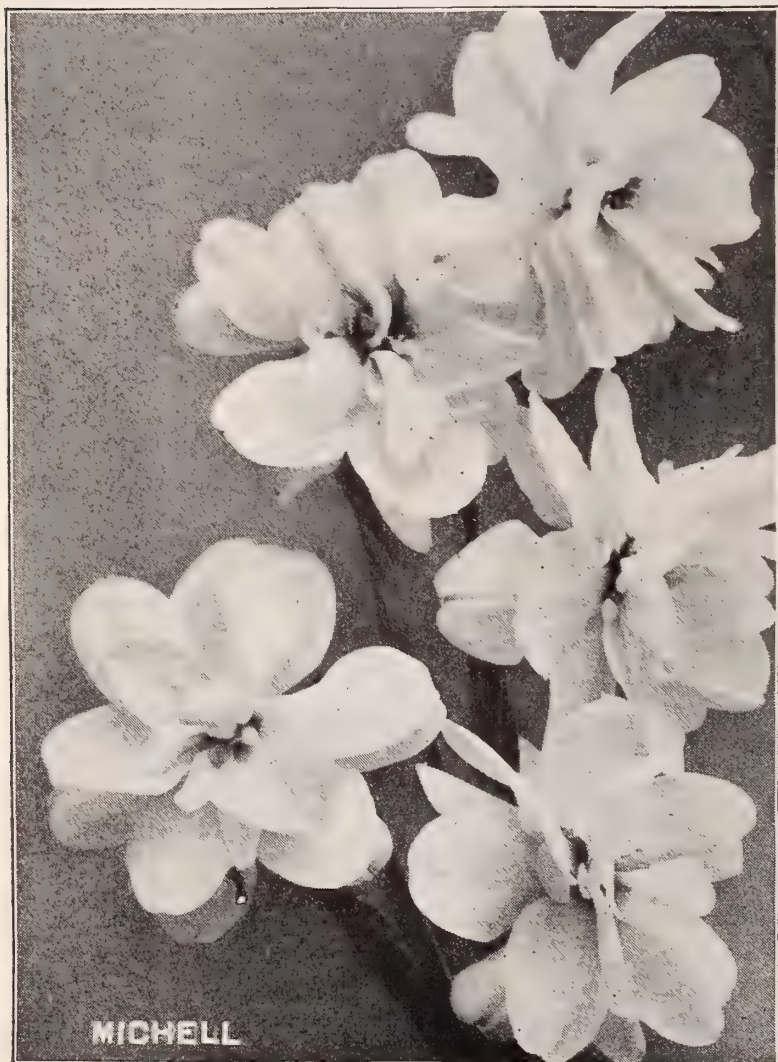

Incomparable Double. On account of the peculiar suffusion of the colors in the flower, this variety is also known as "Butter and Eggs." The color is yellow and orange and makes an attractive cut bloom. Its greatest value is for outdoor planting as it does not force so well. Height about 16 in. 3 cts. each; per doz., 20c.; \$1.15 per 100; per 1000, \$9.75.

Orange Phoenix. A variety similar to the above, except for coloring, which is a light yellow, almost white, with a yellow centre. It is splendid for forcing or pot culture. It is also called "Eggs and Bacon." Height, 16 in. 4c. each; per doz., 30c.; \$2.00 per 100; per 1000, \$15.00.

Sulphur (or Silver) Phoenix. Flowers very large, bluish-white; the centre is sulphur colored; excellent for forcing or outdoor planting. Height, about 18 in. 5c. each; per doz., 50c.; \$3.25 per 100; per 1000, \$27.50.

Von Sion. (*Telimonius Plenus.*) The true double daffodil. Our stock of these comes from one of the largest daffodil producers in Holland. The color is a pure golden yellow entirely free from green tipped flowers, which are often found in cheap grades. For forcing or outdoor planting it has no equal. It should be planted extensively for naturalizing. Height, about 15 in.

Double Mixed Narcissus. All shades, varieties and colors. A quantity of these make a handsome investment, and at the low price which they are offered, should be planted extensively. Do not force the mixed narcissus. 2c. each; per doz., 20c.; \$1.10 per 100; per 1000, \$8.00.

6 Bulbs of any one variety at dozen rates; 25 at 100 rates; 250 at 1000 rates.

POLYANTHUS NARCISSUS

This class of Narcissus is a most interesting one. They may be grown in water and pebbles like Chinese lilies, but they are equally suited for growing in soil. The flowers are produced in clusters, like the illustration, and they are delightfully fragrant. They are not as a general thing hardy, but can be planted outdoors only if afforded liberal protection during winter.

Double Roman. White perianth, with an orange and yellow suffused cup; very free flowering and early. 4c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$12.00.

Gloriosa. A very showy type, with white perianth and orange-yellow cup; very pretty. 4c. each; per doz., 40c.; \$2.50 per 100; per 1000, \$22.00.

Grand Monarque. Large, broad, white perianth with a primrose-yellow cup; a very striking flower. 5c. each; per doz., 35c.; \$2.25 per 100; per 1000, \$18.00.

Grand Soliel d'Or. Rich yellow, with deep red cup. For cutting this is a fine variety, as it makes a grand show. 5c. each; per doz., 40c.; \$2.50 per 100; per 1000, \$20.00.

Paper White Grandiflora, First Size Bulbs. This is quite a specialty with us; of it alone we import almost one million bulbs. It is a pure white, flowering sort; used extensively for forcing as it can be brought into bloom in 8 weeks' time; the stems are very long and it is excellent for bunching. 4c. each; per doz., 40c.; \$1.75 per 100; per 1000, \$15.00.

Paper White Grandiflora, Monster Bulbs. These are a very choice selection of the above and, while the same in character, the flowers are larger and are borne in greater profusion. 6c. each; per doz., 50c.; \$2.25 per 100; per 1000, \$20.00.

Polyanthus Narcissus, Mixed. All colors and varieties. These will be found a good investment for pot or pan culture. They are low in cost and contain some of the highest-priced sorts. If forced successively an abundance of bloom may be had all winter. 4c. each; per doz., 30c.; \$1.75 per 100; per 1000, \$15.00.

Polyanthus Narcissus—Monster Paper White Grandiflora.

Michell's Double Jonquils.

HARDY NARCISSUS IN MIXTURE

We import a very large number of these on account of the popular demand. They are a good investment at any time. For massing in borders, fields, woods and, in fact, anywhere. They more than return their cost in the liberal manner they flower, producing a wide range of color and variety of bloom. We offer large size bulbs only, which can be depended upon for results the first season.

Single Varieties. 15c. per doz.; per 100, \$1.00; \$7.50 per 1000; per 5000, \$65.00.

Double Varieties. 20c. per doz.; per 100, \$1.10; \$8.00 per 1000; per 5000, \$72.50.

SWEET SCENTED JONQUILS

These are perfectly hardy and are suitable for either outdoor planting or forcing. They are delightfully fragrant and are worthy of extensive cultivation.

Single Jonquils. Rich yellow, very fragrant, height 12 inches. 2c. each; per doz., 15c.; 75c. per 100; per 1000, \$6.00.

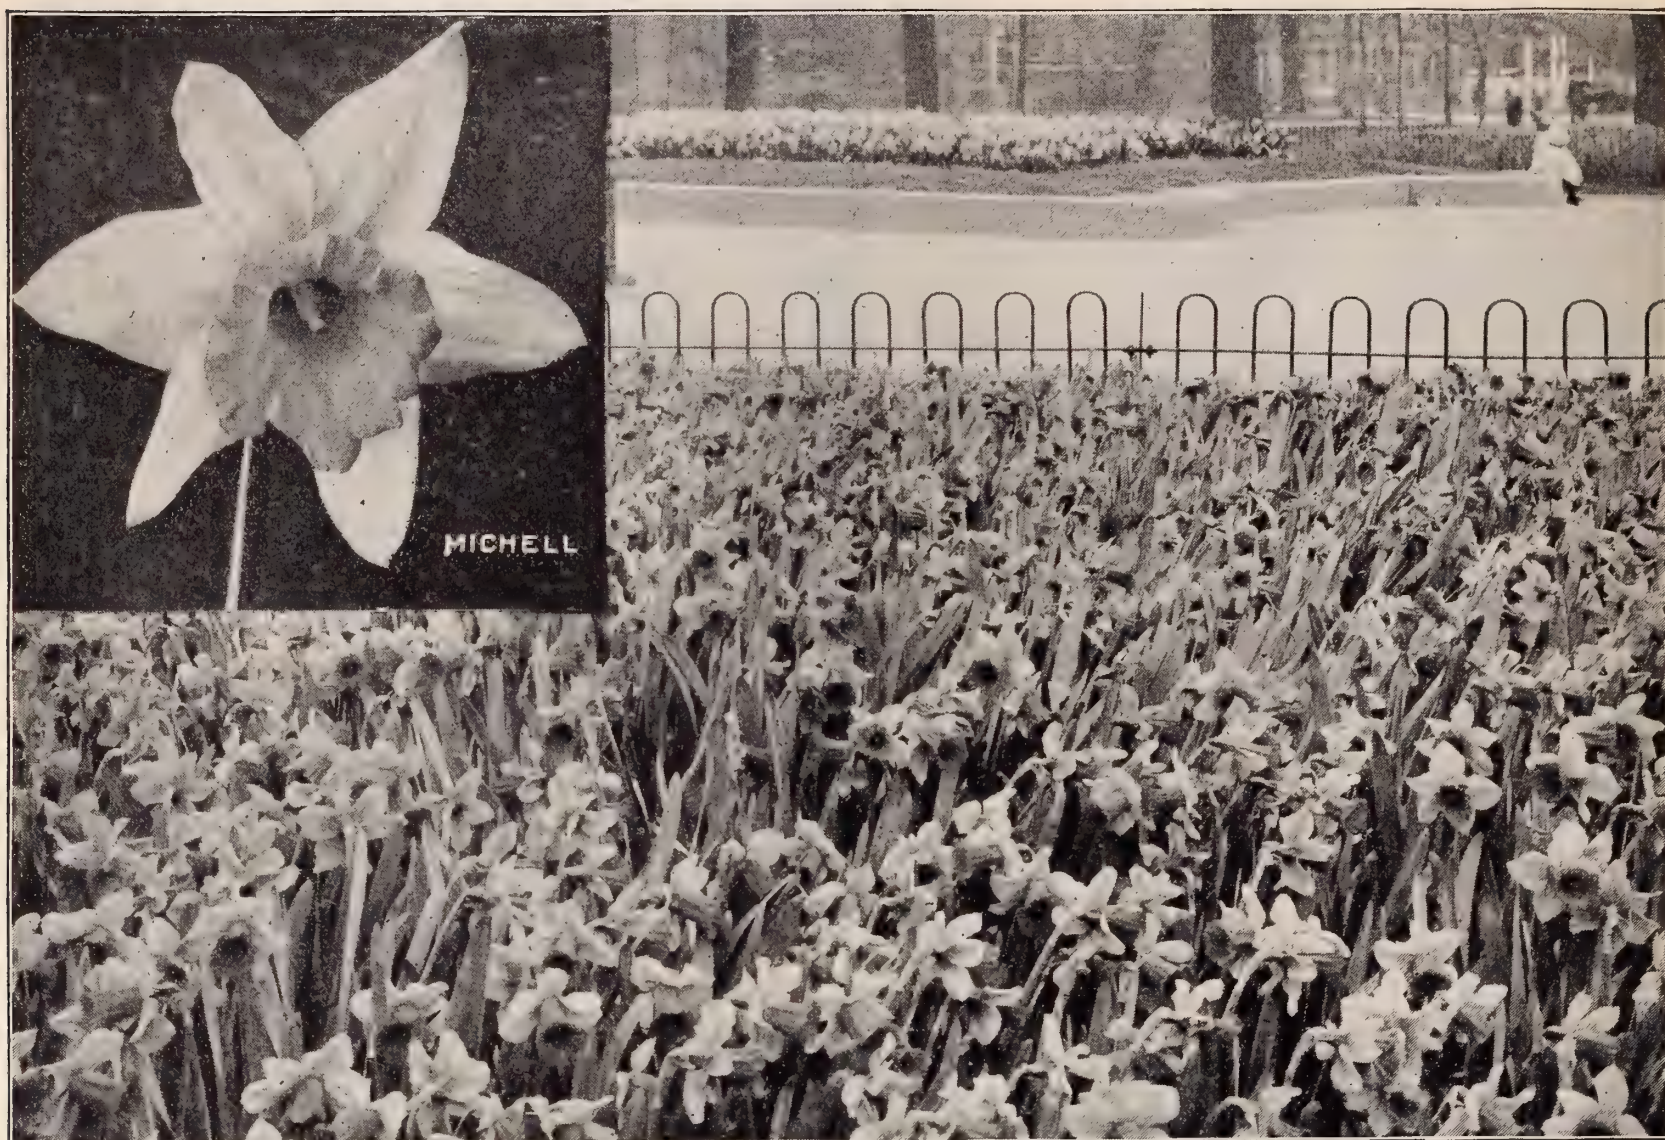

Double Jonquils. Flowers very double, deep golden-yellow, height 12 inches. 4c. each; per doz., 30c.; \$2.00 per 100; per 1000, \$15.00.

Campernelle. Single yellow; a grand forcer. 2c. each; per doz., 20c.; 85c. per 100; per 1000, \$6.75.

Campernelle Rugulosus. Single yellow; larger than the plain Campernelle. 3c. each; per doz., 25c.; \$1.15 per 100; per 1000, \$9.00.

If desired by mail, add 8c. per dozen for postage.

MICHELL'S SINGLE NARCISSUS OR DAFFODILS

Ard Righ (or Irish King.) A very early pure yellow sort, well adapted for forcing and pot culture. Height, about 12 in. 5c. each; per doz., 50c.; \$3.50 per 100; per 1000, \$30.00.

Barrii Conspicuis. A beautiful flower with large spreading yellow perianth; the crown or cup is orange scarlet; free bloomer, best suited to outdoor culture. Height, about 20 in. 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$13.00.

Bicolor Grandee. Flowers very large with pure white petals, with yellow trumpet; flowering late. Height, about 12 in. Fine for cutting. Best for outdoor culture. 4c. each; per doz., 40c.; \$2.25 per 100; per 1000, \$17.50.

Campernelle. A type of large flowering jonquil, pure light yellow, fine for forcing in pans or boxes, and for cutting. The flowers are produced 4 to 6 on a stem. Height, about 16 in. 2c. each; per doz., 20c.; 85c. per 100; per 1000, \$6.75.

Campernelle Rugulosus. A giant jonquil, similar to the Campernelle except in size; the flower is somewhat crinkled on the edge. Height, about 16 in. 3c. each; per doz., 25c.; \$1.15 per 100; per 1000, \$9.00.

Cynosure. Perianth primrose stained orange scarlet, with yellow cup. A fine variety for cutting. Height, about 12 in. 3c. each; per doz., 25c.; \$1.25 per 100; per 1000, \$11.00.

Emperor. (See cut.) This is the grandest of all single daffodils. The flower is pure yellow of gigantic size. It may well be termed the King of Daffodils. Excellent for forcing or bedding. Height, about 20 inches. 5c. each; per doz., 50c.; \$3.25 per 100; per 1000, \$26.00.

Emperor (Monster Bulbs). 10c. each; per doz., \$1.00; \$5.00 per 100.

Empress. A beautiful sort with yellow trumpet and pure white perianth, flower almost as large as Emperor. It is the finest of the two-colored daffodils, suited to either forcing or bedding. Height, 20 inches. 5c. each; per doz., 50c.; \$3.25 per 100; per 1000, \$27.50.

Giant Princeps. A very early sort, suited to forcing as well as outdoor planting; trumpet, pure yellow with sulphur-white perianth. Height, about 15 in. 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$12.00.

Golden Spur. One of the finest pure yellow daffodils in cultivation. The flower is very bold and striking, very early and free flowering, excellent for forcing. Height, about 20 inches. We offer two grades of bulbs.

Giant Bulbs of Golden Spur Narcissus, 6c. each; per doz., 60c.; \$4.00 per 100; per 1000, \$35.00.

First Size Bulbs of Golden Spur Narcissus, 5c. each; doz., 50c.; \$3.25 per 100; per 1000, \$27.50.

Henry Irving. A very symmetrical golden yellow variety, fine for pot or garden culture. Height, about 18 in. 4c. each; per doz., 40c.; \$2.75 per 100; per 1000, \$20.00.

Horsfieldi. A variety very much like Empress; very early and free flowering. It makes a fine cut flower; suitable for either forcing or outdoor culture; perianth, pure white with yellow trumpet. 5c. each; per doz., 50c.; \$3.00 per 100; per 1000, \$25.00.

Single bulb of *Narcissus* mailed free. For mailing dozen lots, add 8c. per doz. for postage.

MICHELL'S SINGLE NARCISSUS OR DAFFODILS—Continued

Hoop Petticoat. (*Bulbocodium Narcissus*.) This is a small diminutive flower, yet very attractive; color, exquisite golden yellow. It shows off to best advantage when planted in bulb pans; when in flower it presents a blaze of showy yellow. They are dwarf and consequently not suited for cutting, but, on account of their showiness should be planted more largely. Each bulb produces 6 to 8 flowers. Height, about 6 in. 6c. each; per doz., 60c.; \$4.00 per 100; per 1000, \$32.50.

Incomparable Stella. The earliest white and yellow variety to bloom outdoors; the flower is somewhat star-shaped, perianth pure white, with deep yellow cup. Fine for planting in borders or masses; not suitable for forcing. Height, about 12 in. 3c. each; per doz., 20c.; \$1.15 per 100; per 1000, \$9.00.

Leedsii (Mrs. Langtry.) A very free flowering sort, several flowers being produced on one bulb; perianth broad, pure white, with white cup edged yellow. Height, about 12 in. 4c. each; per doz., 35c.; \$2.50 per 100; per 1000, \$20.00.

Poeticus. (Pheasant's Eye.) A pure white small flowering type with scarlet eye; they are very fragrant, and are valuable for cut flowers; they bloom quite late and are not suited to forcing; fine for naturalizing or planting in clumps. Height, about 15 in. 2c. each; per doz., 15c.; 70c. per 100; per 1000, \$5.00.

Poeticus Ornatus. An improvement on the above type, being fully two weeks earlier; also suited to forcing; the height and appearance of the flower is much like the above. 2c. each; per doz., 20c.; \$1.00 per 100; per 1000, \$8.00.

Sir Watkin. Sometimes called Chalice flower. The bloom is very large for its class, measuring often 5 in. in diameter; perianth, golden yellow with a deep cup or crown; excellent for forcing. Height, about 20 in. 4c. each; per doz., 40c.; \$2.75 per 100; per 1000, \$22.50.

Trumpet Major, (Dutch grown). A grand, pure yellow trumpet type, excellent for early forcing or for planting outdoors. Height, about 16 in. 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$12.00.

Single Narcissus (Mrs. Langtry).

Trumpet Major, (French grown). For very early forcing these are very good; the flower is identical with the Dutch grown stock; color, pure yellow. 5c. each; per doz., 40c.; \$2.50 per 100; per 1000, \$20.00.

Victoria. Large yellow trumpet, pure white perianth, a highly desirable sort; flower very large and bold. Height, about 18 in. 6c. each; per doz., 60c.; \$4.00 per 100; per 1000, \$35.00.

Single Mixed Narcissus. In all shades, varieties and colors. These should be planted and massed in large quantity. They bloom successively, according to variety, during the entire spring and furnish an abundance of cut flowers. They multiply rapidly and do not require replanting. *We offer first size bulbs only, made up of named sorts in mixture.* 2c. each; per doz., 15c.; \$1.00 per 100; per 1000, \$7.50.

Add 8c. per doz. for postage, if desired by mail. Single bulbs mailed free.

Single Narcissus Poeticus Ornatus. (Natural size.)

MICHELL'S SUPERB EASTER LILY BULBS

Our Easter Lily bulbs are known far and wide as the best to be had anywhere at any price. Each year sees our importations increase in great proportions. We make a specialty of them and, on account of the enormous quantity we import, we are in a position to get the cream of selection. All Lily bulbs are fully matured, healthy and up to size, in fact we aim to give the largest possible value for the money.

**Easter Sunday in 1908
comes on April 19th**

LILIUM HARRISII

The old favorite Easter Lily; too well-known to need description, except to say that in our "Special Brand" strain we offer something decidedly superior. *Lilium Harrisii* may be planted outdoors if afforded protection during the winter.

Cultural Note on Harrisii.—In order to obtain best results from *Lilium Harrisii* attention to the following brief directions will assist materially: Upon receiving the bulbs, pot them immediately. Place a handful of well-rotted cow manure in the bottom of the pot and place the bulb directly on top, covering it with soil. After watering, place pot in an outside pit and protect from the direct rays of the sun; cover well with soil, ashes or any other suitable litter. When the bulbs have become thoroughly rooted, bring inside, in a temperature of about 60°; let the plants grow slowly under a bench or some other suitable place until about 6 inches high; then place on top of the bench. About two months before Easter they can be brought into a warmer temperature and gradually forced into flower and height at one time. An occasional application of liquid cow manure, starting about six weeks before flowering time, will stimulate the plant wonderfully. *Thorough rooting is the most essential point.*

What some of the Larger Growers think of our Easter Lily Bulbs

The Easter Lily Bulbs you sent us are the best we ever had. We have visited our neighboring florists, who got their bulbs elsewhere, and we must say that we have the best lilies in this section of the country. We will have a full crop.

Bloomsburg, Pa.

DAVIS BROS. CO.

Your Easter Lily Bulbs are certainly fine. I could not complain if I wanted to.

Harrisburg, Pa.

F. W. MILLER.

Please book my order for Michell's Special Brand Harrisii. We will have the lilies of the town by Easter. They are certainly a grand lot.

Marion, Indiana.

HOW TO GROW JAPANESE EASTER LILIES

Upon arrival of bulbs pot same at once in 4-inch pots, using coarse soft-coal ashes for drainage in the bottom of pots, giving them a soil composed of sandy loam and well enriched with about $\frac{1}{3}$ well rotted horse or cow manure.

Place pots under a dry bench in either a violet or carnation house, soak down with water very heavy, and after two or three days cover the pots with 2 or 3 inches of ashes.

When Easter is early, place lilies on bench after January 1st, giving them a temperature of 60° night and 70° day for about 10 days, then 70° night and 80° day until buds can all be counted.

During this period manure-water them regularly once a week with the following liquid: 1 bushel cow manure (fresh), and one 4-in. pot full of nitrate of soda to each 50 gallons of water.

Spray the foliage once a day (twice a day when clear weather), and keep the house moist otherwise by spraying the walls and walks. It is also very important to never allow the soil to get very dry, and never feed unless the soil is moist.

When the buds can be counted easily, move plants into houses where you can get the temperature down gradually, and finally mulch them with either a little sheep manure or bone-flour.

Experience with lilies, especially Japan sorts, has proved that the only way you can get them good is to force them quickly and not to check them in growth while temperature is kept high.

As the root action becomes such that they can easily be knocked out of the pots without disturbing the ball of earth, we shift them in either 5 or 6-inch pots according to strength of stock. Drainage in the pot is also of great importance when repotting is done.

MICHELL'S HARDY GARDEN LILIES (Ready in October except where noted.)

Nothing affords more pleasure or makes a more handsome display than a bed or border of hardy lilies. During severe weather it is advisable to cover the bulbs with a litter of long manure, leaves or other suitable material to protect them from frost.

Auratum. (*Golden Banded Japan Lily*.) Flowers pure white spotted crimson, each flower petal is marked with an orange stripe through centre. The flowers are borne in clusters and frequently measure 6 to 7 inches across top; in bloom from July to October. They are delightfully fragrant. Height, 3½ to 5 feet.
Large Bulbs 15c. each; per doz., \$1.50; \$9.00 per 100
Mammoth Bulbs 25c. each; per doz., 2.50; 15.00 per 100
Monster " 35c. each; per doz., 3.50; 20.00 per 100

Auratum Platyphyllum. A marked improvement on the old Auratum, which it otherwise represents, except that the flower is of gigantic size, frequently measuring 10 in. across, with heavy foliage. It is probably the finest garden lily in cultivation to-day. Height, 6 to 8 feet; in bloom from July to October.

Large Bulbs 25c. each; per doz., \$2.75; \$18.00 per 100
Mammoth Bulbs 35c. each; per doz., 3.50; 22.00 per 100

Album. (*Praecox*.) Flowers pure white, with a light greenish streak through the flower petal. It is very fragrant and is an abundant bloomer; flowers measure 5 to 6 inches in diameter, blooming in August. Height, 3 to 4 feet.

Large Bulbs 15c. each; per doz., \$1.50; \$10.00 per 100
Mammoth Bulbs 25c. each; per doz., 2.50; 15.00 per 100

Candidum. (*Annunciation or St. Joseph's Lily*.) A pure white fragrant flower borne in great profusion on long stems 3 to 4 feet high, flowering in June and July. It shows off fine when massed in clusters, where it should be left undisturbed to give best results. Ready now.

Large Bulbs. 10c. each; per doz., \$1.00; \$7.00 per 100; per 1000, \$65.00

Mammoth Bulbs. 15c. each; per doz., \$1.50; \$10.00 per 100; per 1000, \$90.00

Lilium Auratum Platyphyllum.

Lilium Candidum. (For description see above.)

Album Kraetzeri. An improvement on the old type of Lilium Album, being much larger and better in every way. The flowers are very large, measuring 6 to 8 in. when fully expanded. Height, 2½ to 3½ feet, blooming in August.
Mammoth Bulbs 30c. each; per doz., \$3.00; \$20.00 per 100

Magnificum. A beautiful new variety with flowers almost twice the size of the other types. Color, a very rich red, spotted deep red. It is a tall graceful grower, height about 4 feet, blooming in August.

Large Bulbs 20c. each; per doz., \$2.00; \$12.50 per 100

Large Bulbs 15c. each; per doz., \$1.50; \$10.00 per 100

Rubrum or Roseum. Very deep pink, in fact the flower is white, but on account of the heavy markings and spots of crimson, it has a pink appearance. It is one of the finest offered on this page. Height 3 feet, blooming in August.

Large Bulbs 15c. each; per doz., \$1.50; \$10.00 per 100
Mammoth Bulbs 25c. each; per doz., 2.50; 15.00 per 100

Rubellum. A compact or dwarf growing lily, producing flowers of a beautiful delicate pink. It blooms in June and July, which is much earlier than most of the improved classes of lilies. The flower is rather elongated but most attractive. Does well in sandy soil, with plenty of drainage. Height, 15 inches.

Large Bulbs 20c. each; per doz., \$2.00; \$12.50 per 100

Tenuifolium. (*Coral Lily*.) Color, rich orange scarlet. Height, 1 to 2 feet, flowering in May and June; flowers small, foliage very narrow. 15c. each; per doz., \$1.50; \$10.00 per 100.

Tigrinum. Our stock of Tiger Lilies is imported from Japan and will be found to be far superior to home-grown bulbs which are small and produce weak plants. Color, golden orange spotted black, blooms in profusion. It makes a good show when massed in a bed or border. Blooms in July and August.

Splendens. (*Improved Single Tiger Lily*.) 4 to 5 feet high.

Large Bulbs 10c. each; per doz., \$1.00; \$7.50 per 100

White Calla Lily

CALLA LILY BULBS

Callas require good, rich soil and plenty of warmth and water to make them thrive. The White Calla may also be grown in water. The black variety does not require so much moisture. When through flowering the pots may be laid on their side to allow the tops of bulb to die off. The plant may thus be used another season.

Very dark flower; foliage green. Water sparingly until the plant is about 4 inches high. 15c. each; per doz., \$1.50; \$10.00 per 100.

SPOTTED CALLAS (Ready in October)

White flower with green foliage mottled white; very free bloomer. 10c. each; per doz., \$1.00; \$7.00 per 100.

LITTLE GEM CALLA

Our stock of these is genuine, being procured direct from the original source. The plant and flower are indeed a curiosity. In appearance and growth it is just like the White Calla, except that the bloom and plant are much smaller. They are very free bloomers and are excellent for cutting or as pot plants. 10c. each; per doz., \$1.00; \$6.00 per 100.

YELLOW CALLA

(*Elliottiana*)

A beautiful variety, producing a flower of a golden-yellow color; the foliage is dark green, spotted white. 50c. each; per doz., \$5.00.

Little Gem Calla

Single Bulbs of Callas, except where noted, mailed free. Add 10c. per dozen for mailing Black, Little Gem and Spotted Varieties.

TESTIMONIAL

I have been buying all my bulbs from another firm in years gone by, but last season I purchased some of the same sorts of bulbs from them and part from your house. Yours proved to be most satisfactory in every way while those from the other firm turned out in many cases to be blind.—MRS. MARY CRISWELL, Vandergrift, Pa.

CHINESE SACRED LILY

These beautiful flowers are deliciously fragrant and are produced in great abundance. The best effect may be had by planting three or more bulbs in a cluster. This is usually done in bowls, with pebbles and water, although they may also be grown in soil. After planting, place the bulbs in a dark, cool place until the bud appears in the stem; then bring to the light. Care should be taken at all times to see that they have an abundance of water. Many failures of Chinese Lilies to bloom are caused by keeping them in too warm a room; also by gases and dry heat. It is best to keep them in a cool room until the buds have burst. They flower in six weeks from time of planting. Color white, suffused yellow. We handle only blooming size bulbs.

Large Bulbs—10c. each (by mail, 13c.); 3 for 25c. (by mail, 35c.); \$2.00 per basket of 30 bulbs.

Mammoth Bulbs—15c. each (by mail, 18c.); 2 for 25c. (by mail, 30c.); \$3.50 per basket of 30 bulbs.

GOLDEN CHINESE LILY

A beautiful variety. The center cup is deep yellow while the perianth is lighter. Treat exactly the same as the regular Chinese Lily. Very fragrant.

Large Bulbs—5c. each; per doz., 50c. (by mail, 65c.); \$3.50 per 100.

MISCELLANEOUS FLOWERING BULBS

ACONITE—WINTER. (*Eranthis Hyemalis*.)

A very early golden yellow flowering bulb blooming with the Snowdrop. The foliage is quite dense and remains after the flower has died down. Aconite should be planted where it is shaded, preferably in a moist location; perfectly hardy. Height, about 6 inches. Dozen and 100 lots mailed free. 3c. each; 20c. per doz.; per 100, \$1.00; \$7.50 per 1000.

ALLIUM

Neapolitanum. Used exclusively for indoor culture in pots and pans. It is especially adapted to forcing and makes an excellent cut flower; color pure white. Height 12 inches. It is not hardy, so cannot be planted outdoors. Dozen and 100 lots mailed free. Each, 3c.; 20c. per doz.; per 100, \$1.00; \$6.50 per 1000.

AMARYLLIS

Nothing equals the grand Amaryllis for variety of color, and for ease of culture. They usually flower in two or three weeks after planting. They are not hardy, so must not be planted outdoors. When the bulb has discontinued flowering it may be allowed to die off at the top, the bulb can then be cured and used another season. Keep in the dark for about 1 week when starting, and water liberally. Do not plunge the entire bulb in the pot, but cover it about half way up.

Belladonna Major. Bright pink. 15c. each; per doz., \$1.50.

Formosissima. (*Jacobean Lily*.) Crimson. 10c. each; per doz., \$1.00.

Hybrids of Vittata. A mixture of fancy unnamed sorts containing some handsome types. 50c. each; per doz., \$5.00.

Johnsoni. Red, striped white, very large flowering. *Large Bulbs*, 25c. each; per doz., \$2.50. *Mammoth Bulbs*, 35c. each; per doz., \$3.50.

Treata Alba (*Zephyranthes*). A very small flowering white variety, with grass-like foliage. 5c. each; per doz., 40c., (postpaid); \$3.00 per 100.

Treata Rosea (*Zephyranthes*). Just like the above, except for color, which is a beautiful pink. 5c. each; per doz., 40c., (postpaid); \$3.00 per 100.

ANOMATHECA CRUENTA (*Scarlet Freesia*.) (*Ready in November*.)

This little bulb produces an attractive scarlet flower much resembling the favorite Freesia. It is used principally for forcing indoors, but may be planted out if protected during winter. The flowers, which are borne in great profusion, are a rosy scarlet, spotted crimson on the three lower petals. Price includes postage on dozen and 100 lots. 3c. each; per doz., 20c.; \$1.25 per 100; \$10.00 per 1000.

Begonia.

BEGONIAS (*Tuberous Rooted*.)

(*Ready in December*.)

These bulbs can be used for spring bedding as well as for early flowering indoors. They cover a wide range of colors as given below. The flower makes a beautiful contrast with the dark green foliage. Begonias are not hardy, and cannot be left outdoors during winter. They delight in a moist shaded place.

Fancy Giant Amaryllis

Single Anemone-Fulgens.

*Chionodoxa***CHIONODOXA (Glory of the Snow)**

One of the first flowers to appear in the spring. They make a handsome show, each bulb producing several flower spikes. They are perfectly hardy and do not need any protection. They are frequently planted in masses on a lawn like Crocus. For edging other early flowering bulb beds they are well suited. Height about 6 inches. Dozen and hundred lots mailed at prices quoted below.

Gigantea. Large flowers; color lilac blue, white centre. 25c. per doz.; per 100, \$1.50; \$12.00 per 1000.

COLCHICUM AUTUMNALE (Giant Autumn Flowering Crocus)

An attractive autumn flowering bulb. The flowers appear in the autumn while the leaves appear the following spring. They are perfectly hardy and do not require replanting. Grand for planting in woods, meadows, amongst shrubbery, etc. The colors comprise the various shades of lavender, purple and rose. Height 6 inches. **Very Large Bulbs.** 6c. each; per doz., 65c. (postpaid, 75c.); \$4.50 per 100.

*Michell's Giant Named Crocus**Crown Imperial "Crown upon Crown"***CROWN IMPERIAL (*Frittelaria Imperialis*)**

This bulb is not given the attention that is due it, for nothing makes a more striking or brilliant show than a cluster of Crown Imperials. It is hardy in every way, but we recommend a slight protection during winter. When planted three or four in a clump they give the best effect. The bulb produces a stem 3 to 4 feet long with a cluster of bell-shaped flowers at the top, which are gorgeous in coloring. We offer mammoth bulbs.

CROCUS

Nothing can be had for so small an outlay that will produce the effect of a planting of Crocus bulbs. They should be put in the lawn, in the woods and wherever a place is available. The bright colored flowers appear almost as soon as the snow is away and makes one feel as though spring were actually at hand. For edging around perennial borders they are grand. They should be put in double or triple rows. We recommend for fine effect, planting the Giant Named varieties.

DIELYTRA SPECTABILIS (Bleeding Heart)

Ready in November. A very ornamental spring-flowering plant. The flowers, which are heart-shaped, are produced on long drooping stems, of a beautiful rose and white color combination. It is the earliest spring plant to flower, with the exception of some bulbs. After the flower has bloomed away, the plant makes a very attractive appearance with its foliage. In order to make strong root development, the top may be cut away to the ground after the foliage has thoroughly developed. Dielytra forces very readily and is very attractive in a greenhouse or conservatory. We offer very strong, large roots. 20c. each, (by mail, 25c.); per doz., \$2.00; \$12.50 per 100; per 1000, \$90.00.

GLADIOLUS (Ready in November).

The two varieties we offer below are very well suited to greenhouse culture, where they may be planted on carnation benches and in almost any place where they will get light and water. They produce long spikes of beautiful flowers, and are fine for cutting.

Bride. Pure glistening white, 3c. each; per doz., 20c.; \$1.25 per 100; per 1000, \$8.50.

Blushing Bride. Rosy white with carmine blotches. This new and very fine gladioli is worthy of extensive cultivation. 4c. each; per doz., 30c.; \$1.50 per 100; per 1000, \$12.00.

GLOXINIAS (Ready in December).

Our strain of these is very large flowering. The gloxinia is easily succeeded with in either house or conservatory. They like a shaded place, reasonably warm, and plenty of moisture. We offer mixed and separate colors as below.

Blue	White Bordered Blue
Scarlet and Red	White Bordered Scarlet
Spotted and Tigered	White (Pure)

Any of the above separate color gloxinias, 15c. each; per doz., \$1.50 (by mail, \$1.65); \$7.00 per 100.

Choicest Mixed Gloxinias. 10c. each; per doz., \$1.00 (by mail, \$1.15); \$6.00 per 100.

FREESIA

A beautiful white flower of exquisite fragrance. A continuance of them in flower can be had from Christmas until early summer, if planted at intervals of two or three weeks. Put them in pots or pans, 6 or 8 bulbs at a time, and place them in the light. Unlike most other bulbs, they make root and top growth at one time and become weakened if put in the dark. The flower stem is 8 to 10 inches long, and therefore it makes valuable for cutting.

Bermuda. Pure white, First size bulbs, 3c. each; per doz., 20c.; \$1.00 per 100; per 1000, \$8.00.

Bermuda. Pure white, Mammoth bulbs, 4c. each; per doz., 30c.; \$1.50 per 100; per 1000, \$10.00.

California. White, with yellow throat, First size bulbs, 2c. each; per doz., 15c.; 75c. per 100; per 1000, \$6.00.

California. Mammoth bulbs, 3c. each; per doz., 20c.; \$1.25 per 100; per 1000, \$9.00.

California. Monster bulbs, 5c. each; per doz., 35c.; \$2.00 per 100; per 1000, \$15.00.

Fischer's Purity. This is the grandest freesia ever offered. The flowers are almost twice the size of the regular type; they also differ somewhat, being a pure glistening white; the stems are often 15 inches long and very wiry, rendering it a most valuable cut flower. Each bulb will produce 3 or 4 flower stems.

First Size Bulbs. Each, 7c.; 70c. per doz.; per 100, \$3.50; \$30.00 per 1000.

Mammoth Bulbs. Each, 10c.; \$1.00 per doz.; \$5.00 per 100; per 1000, \$40.00.

TESTIMONIAL ON MICHELL'S FREESIA

I wish you could see the Mammoth Freesia Bulbs in flower, which I got from you. They are marvelous, indeed. I am getting 200 cut blooms a day from them. They are certainly grand and I have enjoyed them so much.

LACHENALIA (*Cape Cowslip*)

A most profuse blooming bulb; very early; for indoor culture only. They should be grown in a cool place, where they will remain in bloom for six weeks.

Pendula. Vermilion, tipped green and purple; very odd. 20c. each; per doz., \$2.00; \$12.50 per 100.

LILY OF THE VALLEY

(Ready in December except where noted)

A beautiful pure white flower; principally used for winter forcing. Very fragrant and produced in abundance. For indoor culture plant about 25 pips or roots in a 7-inch pot or pan, place outside, where they should be left until they have been subjected to several nights' freezing, which brings them into flower more readily. When grown outdoors always plant in a shaded place, preferably moist. They bloom in four weeks inside and, if planted at intervals, a succession of flowers can be had all winter.

Michell's Berlin Pips. For forcing. 25c. per doz. (by mail, 30c.); 40c. for 25; \$1.50 per 100; per 1000, \$13.50.

ORNITHOGALUM ARABICUM (Star of Bethlehem)

A pure white spring-flowering bulb, perfectly hardy, will also force indoors.
5c. each; per doz., 40c.; \$3.00 per 100; per 1000, \$25.00.

OXALIS

A free flowering house bulb which can be brought into flower in 6 to 8 weeks. Plant the bulbs in pots or pans about 6 bulbs to each, place them in a dark, cool place until thoroughly rooted, when they may be brought to the light. Oxalis are susceptible to insects from which they may be kept free, by an occasional sprinkling of tobacco dust. The bulbs are not hardy, so cannot be planted outside. They are well adapted to hanging baskets, with the exception of the Grand Duchess variety, which makes a fine pot plant.

Bermuda Buttercup. Pure yellow, free flowering variety, for pots.

Large bulbs. 3c. each; per doz., 25c.; \$1.50 per 100; per 1000, \$10.00.

Monster bulbs. 5c. each; per doz., 50c.; \$3.00 per 100; per 1000, \$22.50.

MICHELL'S HARDY DOUBLE PÆONIES

(Ready in November.)

These are another class of plants that have come into general favor in later years. They are well worthy of any attention bestowed upon them, for nothing makes a more gorgeous or lasting show than a bed of pæonies. They are perfectly hardy and need no attention after planting.

MICHELL'S GIANT FLOW- ERING PÆONIES

See Illustration on front cover.

We offer a special selection of very large clumps, which if planted this fall, will bloom next spring. For an immediate effect these cannot be surpassed.

Pink, White and Red in separate colors. 35c. each, (3 for \$1.00); \$3.50 per doz.; per 100, \$20.00.

Pæony Festiva Maxima Alba. A grand white variety, streaked carmine in centre of flower, very early to bloom and quite fragrant. 50c. each, (3 for \$1.25); \$5.00 per doz.; per 100, \$35.00.

REGULAR DOUBLE PÆONIES

Pink, Red and White in large clumps, with 3 to 5 eyes each. 25c. each; per doz., \$2.50; \$16.00 per 100.

Pæony Tenuifolia. A beautiful red sort, like a Jack rose, with fine foliage, blooms very early. 25c. each; per doz., \$2.50; \$18.00 per 100.

SCILLA SIBERICA (Squills)

A pretty blue flower, making an attractive combination when planted with Snowdrops or Crocus. They flower very early and remain in bloom some time. For growing in pots or pans they are also desirable. Planted in hyacinth and tulip beds as background they show off nicely, coming into flower before either of the above. We import large bulbs only. Each, 3c.; 20c. per doz.; per 100, \$1.25; \$10.00 per 1000.

SCILLA (Maritima)

A giant flowering Scilla, bearing a beautiful rose-colored flower. 50c. each; per doz., \$5.50.

SPARAXIS

A small bulb bearing a very large flower, on long, graceful stems; they resemble somewhat the Ixia in shape. The range of colors is very great and they are most attractive for indoor blooming as they are not hardy.

Mixed Colors. 2c. each; per doz., 15c.; 75c. per 100; per 1000, \$6.00.

SNOWDROPS (Galanthus)

This is the first flower to appear in the spring and may invariably be seen in flower with snow and ice around it. They should be planted in masses or clumps, otherwise they are not conspicuous. Color pure white. Snowdrops can be flowered indoors during winter where they do well.

SPIREA (Ready in November)

This is a favorite Easter flowering plant rivaling with the lily. The root is forced principally, but is also suited for outdoor planting, where it blooms in June. Our Spirea clumps are very large and cannot be mailed to advantage.

Astilboides Floribunda. A very plummy, fluffy variety; pure white. 15c. each; per doz., \$1.25; \$7.00 per 100.

Blondin. A large, thrifty plant, yielding an abundance of bloom. 20c. each; per doz., \$2.00; \$12.50 per 100.

Compacta Multiflora. Of dwarf habit, very compact growth; pure white. 15c. each; per doz., \$1.25; \$7.00 per 100.

Gladstone. One of the newer varieties. It is the best white sort in existence to-day, producing an immense plant with a mass of flowers.

Large clumps: 20c. each; per doz., \$2.00; \$10.00 per 100.

Monster clumps: 35c. each; per doz., \$3.75; \$20.00 per 100.

Japonica. The old type of Spirea, growing taller than the other sorts. 15c. each; per doz., \$1.00; \$6.00 per 100.

McKinley. A good, new, white variety. 20c. each; per doz., \$2.00; \$12.50 per 100.

Queen Alexandra (New). A beautiful shade of pink. Being an offspring of the Gladstone, it requires the same cultural methods. The plant should be shaded as it comes into bloom in order to bring the flower to full perfection. This is the only satisfactory pink forcing Spirea on the market. Large clumps: 50c. each; per doz., \$4.50; \$8.50 for 25; per 100, \$30.00.

Washington. This variety is similar to Gladstone but does not stand forcing so well. The flowers are pure white and borne in great profusion. Large clumps: 20c. each; per doz., \$2.00; \$12.50 per 100.

Monster clumps: 35c. each; per doz., \$3.50; \$20.00 per 100.

New Pink Spirea, Queen Alexandra (See opposite)

WATSONIA (Ardernei)

A beautiful pure white Gladioli-like flower; for indoor planting; each stem produces from 25 to 40 flowers. To obtain the best results in the cultivation of Watsonia Ardernei it is important that the bulbs be given perfect drainage and, where possible, a good loamy soil to which there has been added a liberal dressing of well-rotted manure. Owing to the height of the plants when in bloom it is advisable to stake them, as it prevents their breaking off at the surface of the ground.

Strong bulbs: 20c. each; per doz., \$2.00; \$15.00 per 100.

GARDENIA FLORIDA (Cape Jessamine)

These are very fine for winter flowering in greenhouses and conservatories. They are also suitable for growing out doors, flowering in the early summer (they are not hardy). The color is pure white, delightfully fragrant.

*Single Violet Luxonne***FIELD GROWN VIOLET PLANTS**

We offer very large field grown clumps that will give immediate effect. They are grown and cultivated with great care and will be found superior in every way, free from disease and rust. Violets are not mailable owing to the large size of the clumps we send out.

SINGLE VARIETIES

California. One of the largest single blue violets in cultivation. Free and continuous bloomer.

La France. Very large; one of the very best long stemmed sorts.

Luxonne. The very best large single blue variety. It is of a beautiful rich soft violet color, with strong stout stems from 9 to 12 inches long, very fragrant.

Princess of Wales. A very large sort. Stems long and stout, excellent for bunching.

PLANT HEDGE PLANTS IN SEPTEMBER AND OCTOBER

A Hedge of California Privet.

CALIFORNIA PRIVET

Large Stock, Strong Plants

Exceedingly beautiful; very vigorous and hardy; leaves deep green, bright and very glossy. Especially adapted for hedges at the seashore; easily transplanted. Beware of spurious kinds of privet which are being offered for the above and which are not nearly so desirable. Ours are the genuine California or Japan Privet (*Ligustrum Ovalifolium*). Most of them have been transplanted and are furnished with an abundance of fine fibrous roots, are well branched and are sure to give satisfaction.

We are in position to furnish at lowest price other hedge plants such as *Althea Berberis* and dwarf Evergreens.

SMALL FRUITS

Plant in October and November so they will be established for early spring growth.

BLACKBERRIES

Plant in good rich soil, in rows five feet apart, and three or four feet apart in the row. After the fruiting season or in early spring, cut out all the dead wood. These should be planted early, before the buds start. A good top dressing of stable manure, applied annually, produces large crops. Keep the ground clean and well worked.

Erie. An excellent early berry; ripens its entire crop at once. Berries good size, black, firm, sweet and of good quality. Per doz., 60c.; \$3.00 per 100.

Eldorado. A very vigorous grower, free from mildew, enormously productive and free from core. Per doz., 60c.; \$3.00 per 100.

Ohmer. Very hardy and exceptionally late. Fruit firm and of excellent quality; no core. Per doz., 60c.; \$3.00 per 100.

Iceberg. A white blackberry. Its bearing qualities are wonderful. The berry is very large, sweet and tender. A heavy cropper. Per doz., 75c.; \$5.00 per 100.

Ward. An immense glossy black variety; rich, sweet, and with no hard core. A tremendous yielder. Per doz., \$1.00; \$8.00 per 100.

CURRENTS

Black Naples. Vigorous and productive. Used for jelly and jams and highly profitable for market in some sections. Two years old. Per doz., \$1.00; \$6.00 per 100.

Fay's Prolific. Color rich red. Per doz., \$1.00; \$6.00 per 100.

Red Dutch. Medium size; in large bunches. The old and well-known currant of the garden. Per doz., \$1.00; \$6.00 per 100.

Red Cherry. Very large. Per doz., \$1.00; \$6.00 per 100.

White Grape. The best white variety; large and sweet. Per doz., \$1.00; \$6.00 per 100.

HARDY GRAPE VINES

Brighton. Bunch large, well formed. Berries red, medium to large, round, excellent flavor and quality. One of the earliest in ripening.

Campbell's Early. A valuable and delicious grape. Vine very strong, hardy and vigorous, with thick, healthy foliage; an abundant bearer. Berries large, black, with light purplish bloom; skin thin; flesh firm but tender; few and small seeds; flavor rich and sweet.

Catawba. A very good keeper; red, sweet and rich, with pleasant flavor. Does best against buildings.

Concord. One of the most profitable of all hardy grapes. Bunch and berry large; black, juicy and sweet.

Delaware. Bunches small, compact, shouldered. Berries rather small, round; skin thin; light red; flesh very juicy, sweet, spicy and delicious.

Columbian. The largest grape in culture. A beautiful black color, juicy and sweet.

Moore's Diamond. A strong healthy grower, hardy and productive; color white; bunch and berries large. Ripens before Concord.

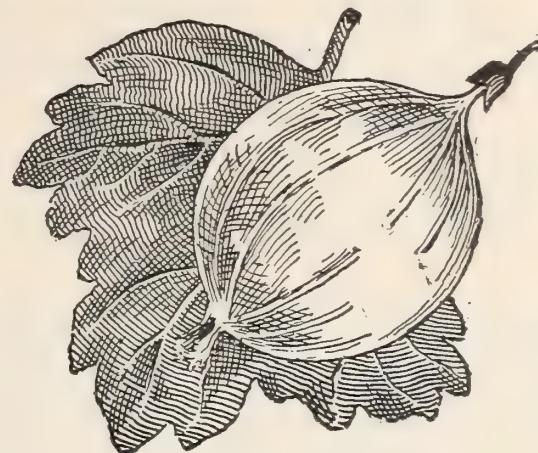

Moore's Early. Berry and bunch large, round; color heavy blue. Its earliness makes it desirable for an early market.

McPike. (New). Equal to Black Hamburg. Perfectly hardy and earlier than Concord. Bunches large, even and compact. Berries of mammoth size, being three inches in circumference; of superb quality; skin thin; delicious flavor; color deep blue. Each, 35c.; \$3.50 per doz.

Niagara. Berries large, mostly round, light greenish-white, semi-transparent; does not crack; has very little pulp.

Pocklington. Bunch and berries large; when fully ripe a light golden-yellow, juicy, tender, sweet. Strong grower, productive.

Prices, 2-year old vines, except where noted, each, 25c.; \$2.50 per doz. 3-year old vines, except where noted, each, 50c.; \$5.00 per doz.

Industry Gooseberry

GOOSEBERRIES

Downing. Large pale green; soft, juicy and good for family use. Per doz., \$1.50; \$8.00 per 100.

Houghton's Seedling. Pale red. Per doz., \$1.50; \$8.00 per 100.

Industry. Although a foreign sort, it has done admirably, being a vigorous grower and an immense yielder. Color dark red. Each, 20c.; \$1.50 per doz., 100, \$10.00.

Pearl. A very productive and perfectly healthy variety, quite free from mildew. Pearl is a favorite and hard to beat; bushes planted but one year are said to yield three quarts of berries. A robust, vigorous grower, with berries larger than Downing. Each, 20c.; per doz., \$1.50; \$10.00 per 100.

RASPBERRIES

Brandywine. Large, bright red, hardy and productive, an old variety, extensively grown. Per doz., 50c.; \$2.50 per 100.

Cuthbert. Large, firm, deep rich crimson, of excellent quality, perfectly hardy and very productive. Per doz., 50c.; \$2.50 per 100.

Philadelphia. Dark crimson. Per doz., 50c.; \$2.50 per 100.

Golden Queen. Best yellow variety. Per doz., 50c.; \$2.50 per 100.

Gregg. A large black variety, fruit firm, of excellent quality, and a good shipper. Per doz., 50c.; \$2.50 per 100.

Cumberland (Blackcap). The largest raspberry known. Selected specimens measure an inch in diameter, they are uniformly very large. The canes are extremely hardy. They are immensely productive, producing annually very heavy crops. Fruit firm, and in quality equal to the very best. Per doz., 50c.; \$2.50 per 100.

Columbian. A most vigorous grower. It is very hardy. Fruit very large, often an inch in diameter, color dark red, bordering on purple, adheres firmly to the stem, the best for canning or evaporating and probably the most productive of all raspberries. Per doz., 50c.; \$2.50 per 100.

MICHELL'S CELEBRATED GRASS SEEDS

There is no part of our business on which we bestow more care than in our grass seed department. The success and failure of obtaining good lawns has caused us to make a special study of this branch and we offer only the choicest mixtures (not dirt and chaff) of grasses, properly blended, at prices that are within reach of all. Remember our prices are for fancy, re-cleaned grass seeds, with all chaff taken out.

A Perfect Lawn, Produced with Michell's Evergreen Lawn Seed

SEPTEMBER and OCTOBER are best Months for Sowing MICHELL'S EVERGREEN LAWN GRASS SEED

We could write pages of testimonials from people who have sown this mixture and pronounce it the best they have ever used. It comes up evenly, quickly; in fact, it can be mowed in four to six weeks after sowing the seed. It makes a thick, permanent sod and thrives under most adverse conditions. Sow 4 bushels per acre on new lawns or $2\frac{1}{2}$ bushels per acre in renovating old lawns. 25c. per qt. (by mail, 35c.); 2 qts. for 40c.; 65c. for 4 qts; peck, \$1.00; \$4.00 per bu. of 20 lbs.; 5 bus. for \$18.75; \$36.50 for 10 bus. (Special price on larger quantities.)

What some Users of Michell's Evergreen Grass Seed have said:

AUGUSTA, GA.

That Evergreen Grass Seed sent me gave better results than any other lawn grass mixture I have ever used. I certainly can recommend it for the South, as it will not burn out.

B. L. A.

E. MAUCH CHUNK, PA.

I want to say for your satisfaction that the lawn produced by your Evergreen and Terrace lawn grass seed is the wonder of the community. Everyone who sees it insists that it was sodded; and when I tell them it was from your seed they are amazed. I seeded 7,000 square feet. J. E. WAASER, M. D.

ST. CLAIR, PA.

Enclosed find check. Am very much pleased with the Evergreen Grass Seed furnished me this spring. We sowed it on a place which never had grass on, and now it looks like a lawn that had been established for years. I am certainly delighted.

W. A. LATTIMORE.

COATESVILLE, PA.

We have finished sowing a small plot between 800 and 1,000 square feet of ground with your Evergreen Lawn Grass Seed. It is now up and looking fine. Really we cannot find a weed in it. T. BROWN, JR.

At the time of going to press with this catalogue our 1907 Grass Seed, Lawn Clover, etc., sales have exceeded **250,000 lbs.** (over a quarter million lbs.) **WE MUST BE HEADQUARTERS.**

Showing part of 300 acres of shaded lawn sown in the Government Park, at Valley Forge, Pa. Michell's Shaded Lawn Seed used exclusively.

MICHELL'S SHADED LAWN GRASS SEED

On most all large estates, and even in small yards, there are shaded places where, heretofore, it has been hard to establish grass. Michell's Shaded Lawn Seed has been prepared for just such places as these. The Valley Forge Park Commission used it on over three hundred acres of the Government Park at Valley Forge, Pa. The above picture substantiates what they said in telling us that it gave them perfect results. They are not allowed to give an opinion for publication, otherwise we would print it here. We might add, that in sowing grass in shaded places, and under trees, an

occasional application of land plaster will be found very beneficial, keeping the soil sweet. Fertilizing is also essential and should be done frequently. **Michell's Pure Bone Meal** is an economical as well as inexpensive lawn enricher.

Prices of **Michell's Shaded Lawn Seed**, 25c. per qt., (by mail, 35c.); 40c. per 2 qts.; 4 qts., 65c.; \$1.00 per pk.; per bu. of 20 lbs., \$4.00; \$18.75 for 5 bus.; 10 bus., \$36.50. (Special price will be quoted on larger quantities).

OTHER LAWN GRASS MIXTURES

FAIRMOUNT PARK LAWN SEED. A very fine mixture indeed, meeting the requirements of those desiring a moderately priced grass seed. Sow 4 bushels to the acre on new land or 2½ bushels on old ground. Prices: per qt., 20c., (by mail 25c.); 35c. for 2 qts.; 4 qts., 50c.; 75c. per pk.; per bu. of 15 lbs., \$2.75; 5 bu. \$13.00; 10 bu., \$25.00.

EVERGREEN GRASS WITH NO CLOVER. Many people do not like white clover in a lawn. This mixture fills that want entirely. Price per quart, 25c., (by mail, 35c.); 40c. for 2 qts.; 4 qts. 65c.; \$1.00 per pk.; per bu. of 20 lbs., \$4.00; 5 bu., \$18.75; 10 bu., \$36.50.

MICHELL'S SEASHORE FORMULA GRASS SEED. The salt atmosphere plays havoc with the seashore lawn, and unless the proper formula of seed is sown, trouble is sure to come. Contains such grasses only as thrive best in salt air regions. Sow 4 bu. to the acre on new ground or 2½ bu. for reseeding old lawns. Prices: per qt., 25c., (by mail, 35c.); 40c. for 2 qts.; 4 qts., 65c.; \$1.00 per pk.; per bu. of 20 lbs., \$4.00; 5 bu., \$18.75; 10 bu., \$36.50.

TESTIMONIAL

Please send me the following order. I also wish to say that I have as fine a lawn as there is in the square. I give your Evergreen Grass Seed the credit. It certainly is fine.
Wilmington, Del. I. W. HALLAM.

MICHELL'S TERRACE OR EMBANKMENT GRASS SEED.

A serious problem after a rain storm is the replacing of washed-out places in the terraced lawn. By sowing our Embankment Mixture there will be no fear of this. Compounded especially for this purpose, and will stand critical tests. Sow at the rate of 4 bu. per acre. Prices: per qt., 25c., (by mail, 35c.); 40c. for 2 qts.; 4 qts., 65c.; \$1.00 per pk.; per bu. of 20 lbs., \$4.00; 5 bu. \$18.75; 10 bu., \$36.50.

TESTIMONIAL

Bureau of City Property, Philadelphia.
I congratulate you on the results obtained in the City parks and squares from the 300 bushels of Michell's Evergreen Grass Seed. The lawns are in better condition than ever before, and numbers of people admiring them have questioned my superintendents in regard to the seed.

JOHN C. LEWIS, City Forester.

TESTIMONIAL

Please ship me at once the following order of grass seed. Your Evergreen Lawn Seed can't be beat. It is all fresh, clean seed, and made a beautiful lawn. I can recommend it to the most particular person for a lawn.

Shamokin, Pa.

MICHELL'S CELEBRATED GRASS SEEDS

MICHELL'S GOLF COURSE GRASS SEED. There's no dread of defeat on the fair greens or links where this seed is sown. No obnoxious growth to obstruct the rolling of the ball. A big boon to the lover of the golf course. Sow 5 bu. per acre. Prices: per qt., 20c., (by mail, 25c.); 35c. for 2 qts.; 4 qts., 50c.; 85c. per pk.; per bu. of 15 lbs., \$3.00; 5 bu., \$13.75; 10 bu., \$25.00; 50 bu., \$112.50.

MICHELL'S PUTTING GREENS MIXTURE. This is a new mixture of our own; made up especially of such grasses as will grow very short and make a solid surface to withstand heavy wear; positively no obstruction or interruption to the rolling golf ball. Prices: per qt., 25c., (by mail, 35c.); 40c. for 2 qts.; 4 qts., 65c.; \$1.25 per pk.; per bu. of 20 lbs., \$4.00; 5 bu., \$18.75; 10 bu., \$36.50.

MICHELL'S LAWN TENNIS AND POLO GRASS SEED MIXTURE. The game can be enjoyed much better when the proper grass (where grass is still used on tennis courts) is under foot; growth is short and compact, of rich green verdure. Sow 4 bu. per acre on new lawn or 2½ bu. on old lawns (partially covered with growth.) Prices: per qt., 25c.; 40c. for 2 qts.; 4 qts., 65c.; \$1.00 per pk.; per bu. of 20 lbs., \$4.00; 5 bu., \$18.75; 10 bu., \$36.50; 50 bu., \$162.50.

MICHELL'S PERMANENT PASTURE GRASS. Produces a good substantial turf as well as a nutritious crop for grazing cattle, horses and sheep.

MICHELL'S PERMANENT PASTURE GRASS SEED

When you stop and consider the expense of putting in clover and timothy to be used for pasture, you will quickly realize how economical our pasture grass seed is. One sowing lasts for years, although we advise a light reseeding every few years to keep it in first-class condition. Clover and timothy must be sown every year for continuous results, and there is hardly any difference in the quantity of the hay produced. If you want a permanent investment, sow Michell's Permanent Pasture Grass, 3 bu. to the acre. It will be ready to turn cattle on in 8 to 10 weeks' time. Qt., 20c., (by mail, 25c.); 50c. for 4 qts.; pk., 75c.; \$2.75 per bu.; 5 bu. for \$13.00; \$25.00 for 10 bu.; 50 bu., \$112.50.

QUICK GROWTH GRASS MIXTURE. For making temporary lawns in pleasure parks, fields or grounds; will form a lawn in a few weeks. This is also largely used in fields for pasturage, or when an immediate growth is desired. The *Torresdale Filter Beds* were seeded with almost 1,000 bushels of this (15 lbs. per bushel). Prices: per qt., 20c., (by mail, 25c.); 35c. for 2 qts.; per pk., 75c.; \$2.75 per bu.; 5 bu., \$12.50; \$23.50 for 10 bu.

MICHELL'S HAY FIELD MIXTURE. We have compounded this mixture of grasses for the sole purpose of giving the farmer a thoroughly reliable mixture of seed suitable for hay. When sown and established this grass will stand for years with an occasional seeding of a small amount to make up for any worn out spots. Sow 50 lbs. per acre (15 lbs. per bu.). Price: 20c. per qt., (by mail, 25c.); 4 qts. for 50c.; 75c. per pk.; per bu., \$2.75; \$13.00 for 5 bu.; 10 bu., \$25.00; \$112.50 for 50 bu.

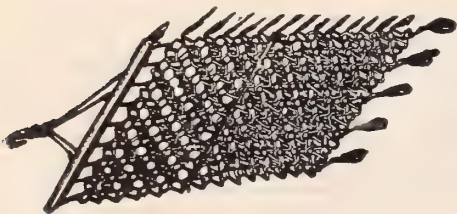

SOUTHERN STATES GRASS SEED. In the South there is a good deal of difficulty experienced in establishing lawns on account of the excessively hot summers. One of our customers asked us to make up a mixture suitable (in our opinion), and he reports it gave him excellent results. We are therefore offering it on account of its endorsement by a thoroughly practical landscape engineer. 20c. per qt., (by mail, 25c.); 35c. for 2 qts.; 4 qts. for 50c.; 85c. per pk.; per bu., 15 lbs., \$3.00; \$13.75 for 5 bu.; 10 bu., \$26.50; sow 5 bu. per acre.

SPECIAL SOD GRASS SEED. Used and highly recommended for establishing a tough turf quickly. Sod is extensively used and naturally exhausts unless means are used to provide for it again. Qt., 25c., (by mail, 35c.); 2 qts., 40c.; 75c. for 4 qts.; per pk., \$1.00; \$3.50 per bu., 15 lbs.; 5 bu., \$16.75; \$32.50 for 10 bu.

ENGLISH OR SCOTCH CHAIN GRASS HARROW

This implement is positively the very best to be had for putting the ground (where a lawn or pasture land is to be established) in the finest possible condition. It is of light draught, pulverizes the ground in the finest possible condition. Wherever a large or important undertaking of lawn or field work is in progress, this harrow should be employed. Very good also for dragging over roads and drives for the purpose of smoothing same. Made entirely of steel; never wears out.

MICHELL'S CELEBRATED GRASS SEED

In Separate Varieties. All free from Chaff and Weed Seeds

We offer these grasses because many people like to sow certain varieties alone, while others prefer to have mixtures made to order. We mix grass in any proportion of varieties at prices quoted below. No charges for mixing.

The planter when buying grass seeds should always consider **quality** as carefully as he does **price**. The grass seed offered by us is plump, well matured and will stand microscopic inspection. Samples cheerfully mailed for comparison. Our stocks of Grass Seeds in separate varieties are selected with the greatest of care. They are also thoroughly recleaned, containing no chaff; are also tested for purity and germination.

Please add 8c. per lb. for postage if desired by mail

Prices subject to market changes

Fancy Red Top, or Herd Grass

Awnless Brome (*Bromus Inermis*). Excellent for sowing on dry barren lands; will stand drought better than any other variety; sow 40 lbs. per acre. (Bu. 14 lbs.). Price, 20c. per lb.; per bu., \$2.50; \$12.50 per 100 lbs.

Blue Grass, Fancy Kentucky (*Poa Pratensis*). This is the most valuable of our lawn and pasture grass seeds; forms the body of all lawn seed mixtures. Our stock of this is extra fine, thoroughly recleaned; sow 3 to 5 bu. per acre on lawns, 2½ to 3 bu. on pasture fields. (Bu. 14 lbs.). Price, 25c. per qt.; per lb., 30c.; \$1.00 per pk.; per bu., \$3.40; \$23.00 per 100 lbs.

Blue Grass Canadian (*Poa Compressa*). Makes an ideal pasture highly relished by cattle; excellent also for sowing on embankments; sow in same proportions as Kentucky Blue Grass Seed. (Bu. 14 lbs.). Price, 15c. per lb.; per bu., \$1.75; \$11.00 per 100 lbs.

Creeping Bent (*Agrostis Stolonifera*). Adapted admirably for lawns; also putting greens, tennis courts, etc.; sow 4 bu. per acre (20 lbs. per bu.). Price, 25c. per lb.; bu., \$4.75; \$22.50 per 100 lbs.

Crested Dogtail (*Cynosurus Cristatus*). Suitable for hard soils that are liable to bake; excellent also as a pasture and lawn grass. Sow 3½ to 4 bu. per acre (21 lbs. per bu.). Price, 40c. per lb.; per bu., \$7.50; \$35.00 per 100 lbs.

English, or Perennial Rye Grass (*Lolium Perenne*). This makes the quickest returns in growth of any grass; is deep rooted and is readily established. Sow 3 bu. per acre (24 lbs. per bu.). Price, 10c. per lb.; per bu., \$2.00; \$8.00 per 100 lbs.

Herd or Red Top Fancy Recleaned. This is one of the best grasses for sowing for immediate effect. Our stock is free from chaff and guaranteed 95 per cent. pure. Sow 25 lbs. per acre (32 lbs. per bu.). Price, 18c. per lb.; per bu., \$4.75; \$14.00 per 100 lbs.

Herd or Red Top (*Agrostis Vulgaris*). This is the same variety as above, but the chaff has not been entirely removed. Sow 4 to 5 bu. per acre on lawns or 3 bu. on pasture lands (10 lbs. per bu.). Price, 15c. per lb.; per bu., \$1.00; 50-lb. sack, \$4.50; \$8.00 per 100 lbs.

Hard Fescue (*Festuca Duriuscula*). Sown on dry places or on undesirable ground this grass gives excellent results. Sow 3 bu. per acre (12 lbs. per bu.). Price, 20c. per lb.; per bu., \$2.10; \$14.00 per 100 lbs.

Italian Rye (*Lolium Italicum*). Very desirable for pasture; being an annual, it comes to maturity the first season. Sow 50 lbs. per acre (18 lbs. per bu.). Price, 12c. per lb.; per bu., \$1.60; \$8.00 per 100 lbs.

Meadow Fescue (*Festuca Pratensis*). Also known as English Blue Grass; used principally for hay and pasture field sowing; also excellent for lawns. Sow 40 to 50 lbs. per acre (22 lbs. per bu.). Price, 15c. per lb.; per bu., \$3.00; \$12.00 per 100 lbs.

Meadow Foxtail (*Alopecurus Pratensis*). Fine for hay and pasture purposes. Sow 30 or 40 lbs. per acre (7 lbs. per bu.). Price, 30c. per lb.; per bu., \$1.90; \$23.00 per 100 lbs.

Natural Green. Largely sown on lawns and fields. Sow 4 bu. per acre (14 lbs. per bu.). Price, 20c. per lb.; per bu., \$2.00; \$12.00 per 100 lbs.

Orchard Grass (*Dactylis Glomerata*). For early pasturing this is very desirable; also fine for sowing in shaded places. Sow 40 lbs. per acre (14 lbs. per bu.). Price, 25c. per lb.; per bu., \$2.60; \$15.00 per 100 lbs.

Red or Creeping Fescue (*Festuca Rubra*). Very valuable for sowing on sandy soil and in shaded places. (14 lbs. per bu.). Price, 30c. per lb.; per bu., \$3.75; \$22.50 per 100 lbs.

Rhode Island Bent (*Agrostis Canina*). For sowing at seashore resorts, on putting greens, tennis courts, etc., this is very desirable. Sow 40 lbs. per acre (14 lbs. per bu.). Price, 35c. per lb.; per bu., \$4.50; \$27.50 per 100 lbs.

Sheeps Fescue (*Festuca Ovina*). This makes an excellent grass for sowing on lawns, fields or pleasure grounds. Sow 40 lbs. per acre (12 lbs. per bu.). Price, 20c. per lb.; per bu., \$2.25; \$15.00 per 100 lbs.

Sweet Vernal Annual; (*Anthoxanthum Odoratum Puelli*). Of a fragrant odor, imparting same to the hay; it is very valuable for sowing on pastures and also lawns. Sow 3 lbs. per acre with other grasses. Price, 25c. per lb.; 5 lbs., \$1.00.

Sweet Vernal Perennial; (*Anthoxanthum Odoratum Real*). Used similar to the above, except this sort remains permanent where sown. Price, 65c. per lb.; 5 lbs., \$2.50.

Timothy (*Phleum Pratense*). Especially adapted for sowing for hay crops amongst wheat. Sow ½ bu. per acre alone. (45 lbs. per bu.). Price (subject to market change), 10c. per lb.; per peck, 85c.; \$3.00 per bu.

Wood Meadow (*Poa Nemoralis*). The best grass for sowing under trees where a lawn is desired. Sow 30 lbs. per acre (14 lbs. per bu.). Price, 45c. per lb.; per bu., \$5.50; \$32.50 per 100 lbs.

WHITE CLOVER

Choicest recleaned for sowing on lawns. Sow 10 to 12 lbs. per acre (60 lbs. per bu.). Price, 25c. per lb.; 5 lbs., 1.20; \$2.30 per 10 lbs.; bu., \$13.20; \$22.00 per 100 lbs.

MICHELL'S CHOICE FARM AND CLOVER SEEDS

All prices subject to market changes

The intelligent and practical (both commercial and gentleman) farmer constantly sees the advantages and necessity in buying only first-class farm seeds. This object in view has led us to be known as handlers of high grade re-cleaned farm seeds. Customers may positively rely upon anything they may purchase from us in this line to be absolutely true to name and free from any adulteration. Samples of any variety of farm seeds cheerfully mailed upon request without cost. Add 20c. for each bushel seamless bag when ordering farm seeds. These are returnable and will be credited at the same rate.

CLOVERS (60 lbs. per bushel)

Michell's Fancy Delaware Grown Crimson Clover.

Alfalfa or Lucerne (*Extra fancy Utah Grown*). Alfalfa makes the finest clover imaginable and when once established in the soil it is good for many years. For a sure crop sow 30 lbs. per acre. Height about 2½ feet. Four crops may be cut in one season. Alfalfa greatly increases the flow of milk and yields a richer quality. Price, 18c. per lb.; pk., \$2.50; \$9.75 per bu.

Alsike or Swedish. Particularly valuable when sown for mingling with other hay crops. Lasts many years where sown. Sow 10 lbs. per acre alone or 6 lbs. where sown with other grass or hay crop. Height, 1 to 3 feet. Price, 18c. per lb.; per pk., \$2.25; \$8.75 per bu.

Bokhara. A tall, quick-growing variety, principally used for providing food for bees. Excellent for ensilage, as it may be cut several times a season. Sow 15 lbs. per acre. Height, 3 to 5 feet. Price, 30c. per lb.; 10 lbs., \$2.50.

Crimson (*Delaware Grown*). Used principally for soiling or green manuring, is also relished by cattle when they become accustomed to it. Sow 20 lbs. per acre. If desired for feed, it should be cut before coming into flower. Height about 2 feet. Price, 12c. per lb.; per pk., \$1.25; \$4.80 per bu.

Mammoth Red (*Pea Vine Clover*). Also called English Cow Grass. This sort is very similar to the *Red Medium*, excepting that it grows somewhat larger and remains established longer. Sow 15 lbs. per acre if sown alone or 10 lbs. if sown with another hay or grass crop. Price, 18c. per lb.; per pk., \$2.40; \$9.50 per bu.

Red (*Medium*). This is the most generally used of all clovers. Principally sown for hay purposes on timothy fields early in the spring. Sow 20 lbs. per acre if alone or 15 pounds where other grass or hay crops are standing. Height, about 18 inches to 2 feet. Price, 18c. per lb.; per pk., \$2.40; \$9.50 per bu.

White Dutch Clover. For field use on pasture lands it is extremely valuable. Sow 10 to 12 lbs. per acre on land seeded with grass or other grain. Our seed of White Clover is extra well cleaned. Price, 25c. per lb.; 5 lbs., \$1.20; \$2.30 for 10 lbs.; per bu., \$13.20; \$22.00 per 100 lbs.

VETCHES

Sand or Winter (*Vicia Villosa*). Fine for forage or turning under, matures several weeks earlier than Crimson clover. Very nutritious, growing 5 to 6 feet high in the poorest soil. Sow ½ to 1 bu. per acre. 12c. per lb.; 10 lbs. \$1.00; \$5.75 per bu. of 60 lbs.; 100 lbs., \$9.00.

CHOICE SEED WHEAT

Our Seed Wheat is grown principally on the farms or estates of gentleman farmers who bear in mind the most important point in wheat growing, that is, well fertilized ground. Most of the wheat offered here has been engaged by us and has a record of having yielded from 36 to 40 bushels per acre. Sow 1½ to 2 bushels per acre (60 lbs. per bu.).

Fultz-Mediterranean (*Bald*). A hybrid variety, a cross between the old reliable *Fultz* and the *Red Mediterranean*. 50c. per pk.; per bu., \$1.75.

Fultz. A white bald variety, a big yielder of seed; straw very stiff. 50c. per pk.; per bu., \$1.75.

Dietz Longberry (*Bearded*). One of our best red wheats, largely in demand by millers. 50c. per pk.; per bu., \$1.75.

Jones Winter Fife (*Bald*). Very prolific, hardy red variety, long grain heads and stiff straw. 50c. per pk., per bu., \$1.75.

SEED RYE

Pennsylvania White Winter. Grown on the farms of large estates where it is carefully rogued and selected. It is grown on the best of soil which insures plenty of vitality, and strong luxuriant growth. Sow 1½ bu. per acre. Prices, 40c. per pk.; per bu., \$1.35.

FANCY TIMOTHY SEED

We handle the very choicest re-cleaned brand of timothy. On account of the large quantity we handle, we are able to quote very low. Sow ½ bu. per acre alone or 6 qts. if sown with wheat (45 lbs. per bu.). Price, 10c. per lb.; per pk., 85c.; \$3.00 per bu. Special price on large quantities.

Timothy.

Dietz Longberry Wheat.

Our General Seed Catalogue offers a complete list of farm seeds.

BEANS

(FOR FORCING)

We offer three choice sorts opposite, any of which are entirely reliable. They produce a crop very quickly on greenhouse benches, and they can be had all winter by planting every two weeks. We can especially recommend the Emperor William as being exceedingly fine. Those who have not tried growing beans indoors, will be well rewarded by so doing.

Emperor William Forcing Bean

MUSHROOM SPAWN

New shipments of English and American Pure Culture Spawn are received at frequent intervals during planting season.

English Mushroom Spawn. Made by the most reputable manufacturer especially for our trade. Per brick, 15c.; (by mail, 25c.); \$1.60 per dozen bricks; 25 lbs., \$2.50; \$8.00 per 100 lbs.

AMERICAN PURE CULTURE MUSHROOM SPAWN

A handsome large type of mushrooms. Very prolific, beginning to appear about one week earlier than from English spawn.

Continuous Cropper No. 1 produces a cream-white colored mushroom, and is suitable for using the entire season.

Quick Cropper. This strain produces an immense yield which, however, is of shorter duration than the Continuous Cropper type. We offer two strains: **No. 9**—producing pure white mushrooms (for using from October till April). **No. 8**—producing cream-white colored mushrooms (for using from April till October). Bricks weigh about 1 3/4 lbs. each.

KIL-O-SCALE

The Great San Jose Scale Destroyer

STILL IN THE LEAD.

SAID BY DEALERS AND USERS

To be the best Commercial Scale Killer on the market.

Kil-o-Scale is a scientific chemical compound. NOT a mixture of several ingredients.

Kil-o-Scale is perfectly soluble in water in any proportion. Will stay in suspension indefinitely.

Kil-o-Scale was in such demand last season that our factory was taxed to its utmost capacity.

On account of increased facilities for manufacturing we are enabled somewhat to lessen the cost of manufacture and in consequence we give the consumer the benefit by lessening the price to him. At the same time KIL-O-SCALE is the SAME AS WHEN FIRST MADE. WE CANNOT IMPROVE ON ITS EFFICIENCY and WILL NOT DECREASE the quality.

READ WHAT IS SAID ABOUT IT
ON OTHER SIDE.

**Extracts from report of the Entomological Department, of
N. J. Agricultural Experiment Station by Prof. John B.
Smith for 1905.**

"Kil-o-Scale is sold by Griffith & Turner Co., of Baltimore, Md., and was up to the present season the best, as it was the first combination regularly upon the market. BUT EVEN THIS IS BETTER NOW THAN IT WAS WHEN FIRST PUT UPON THE MARKET AND THE EMULSION IS MORE STABLE. It differs from the others in containing an appreciable amount of free sulphur and it has proved itself a safe and reliable insecticide."

"In the Howell Orchard the trees were perhaps a little worse infested, but these were sprayed last, with fresh material, which had not been exposed to frost and which mixed without a trace of free oil at the surface. Here the results are almost as good as in the Marsh orchard, though the infestation was not nearly so bad. In any event there were nearly 1000 Peach trees treated in late October or late March and no appearance on any, of injury to trees or fruit set, while the scale was as nearly wiped out as any single application can ever hope to accomplish it."

"Five barrels of diluted mixture were used in a neighboring orchard of Apple and Peach trees in comparison with lime, sulphur and salt and in mid summer the oil proved to have been much the more effective."

. . . . "this Kil-o-Scale will kill the pernicious scale at all periods of the year diluted with 20 parts of water, though most certainly through the fall; provided always of course that the mixture actually reaches the insect aimed at."

MR. SMITH goes on to say, he made a very interesting observation in an application of Kil-o-Scale made by a local nurseryman. "IT PROVED TO BE AN EXCELLENT ILLUSTRATION OF HOW SPRAYING IS OFTEN DONE AND I ADVISED THE OWNER AT ONCE THAT HE MUST NOT LOOK FOR SATISFACTORY RESULTS. THE OBJECT SEEMED TO BE TO GET OVER THE GREATEST NUMBER OF TREES IN THE LEAST POSSIBLE TIME AND WHENEVER THE SPRAYING ROD HAD BEEN OVER AS MANY MOVEMENTS AS MIGHT BE REASONABLY REQUIRED FOR A COVERING, THE WORK WAS CONSIDERED FINISHED. SUCH WORK IS BOUND TO BE UNSUCCESSFUL NO MATTER WHAT THE MATERIAL APPLIED, AND IT IS REGRETFULLY CONCLUDED THAT MUCH OF THE WORK DONE IS OF THIS SAME GENERAL CHARACTER."

Mr. M. S. Secord, Supt. to A. A. Houseman, says he has never seen anything act on trees like Kil-o-Scale. It does its work thoroughly.

Mr. John Williams, Head Gardener E. Hawley, says it is a fine thing and will want more in the fall.

Mr. John Tobin, Head Gardener Mr. Edwin Thorn, says it is a fine thing—nothing better than Kil-o-Scale.

Mr. P. J. Premm, Supt. W. K. Vanderbilt, says he is well satisfied.

Mr. Chas. Dumper, Head Gardener C. L. Lawrence, thinks it is better than any other.

James Scott, Head Gardener Mr. Johnson, says it has done fine work for him.

FATAL TO THE SCALE.

"I saw your catalogue and noticed your "ad" on Kil-o-Scale and thought at once that it was what I was looking for. I sprayed all my trees in March and I don't think there are any scale left.

'My own fruit trees will be a great recommendation, one of the best. I think Kil-o-Scale is as fatal to the scale as Paris green is to the Potato Bug.

'If we spray thoroughly at one to 25 it will kill every scale that it reaches."

A. L. STIVELY.

We recommend 1 to 20.

CONSIDERS IT THE BEST INSECTICIDE.

It gives me great pleasure to state that I consider Kil-o-Scale the best insecticide I have ever used for the San Jose Scale. It is very easy to apply and very effectual and does not injure the trees in any way, in fact I believe it is beneficial to them AND WOULD NOT BE WITHOUT IT IF THE PRICES WERE TWICE AS MUCH. When I commenced to use it two years ago some of my trees were in very poor condition, but now they are vigorous and look fine. I would be glad to show you the results if you would call on me.

WILLIAM SINCOTT,

Gardener to Mrs. Wm. Arnold.

PROMINENT INDIANA FRUIT GROWER.

Indiana, December 5th,

I had four Three-year Old Grime's Golden Apple Trees, covered all over with Scale, vitality of trees almost sucked away, and I treated the trees three times. Two weeks ago I spent an hour on these trees and could not find a live Scale. The insect is not only dead but the Scale is loosening and dropping from the trees.

HENRY A. YEAGER.

Same party, at a later date, December 11th, says:

~~is~~ This material does the work beyond any question. Received your Circulars and will distribute them. This county is fertile in Scale.

Addresses of above furnished on application.

IT IS ABSOLUTELY NECESSARY

To derive the best result from Kil-o-Scale, THOROUGHLY TO STIR the compound before adding the water, as in cold weather it is apt to congeal, and the best part of the Kil-o-Scale be left at the bottom of the container.

To one gallon of Kil-o-Scale, add 20 gallons of cold water and stir. It is then ready to be applied to the trees.

Kil-o-Scale is a dormant spray and should not be used in hot weather, as there is danger of burning the leaf.

KIL-WEED

For Golf and Cricket Grounds, Parks, Driveways of Private Residences, Streets, &c.

A SCIENTIFIC WEED DESTROYER.

The attention of Street Cleaning Departments is called to this Solution. All organic growth is destroyed, therefore only intended for places where weeds are not wanted.

No more digging and disfiguring of paths and road-ways.

Saves expense of several men.

KIL-WEED not only **kills** weeds, but destroys seed germs and roots of plants.

The best time to use **KIL-WEED** is about 24 hours after a rain.

Can be used with an ordinary sprinkling can.

One gallon **KIL-WEED** will make 50 gallons treating liquid.

PRICES.

KIL-WORM

Destroys Worms, Ants, &c., Infesting Golf, Cricket Grounds, Parks and Private Lawns.

SURE DEATH TO SNAILS IN GREEN HOUSES.

For use on Golf and Cricket Grounds, Parks, Cemeteries, &c.

KIL-WORM does not **injure** grass but acts rather as a fertilizer.

KIL-WORM has been thoroughly tested and found perfectly satisfactory.

KIL-WORM kills Worms, Ants, Snails, &c. Causes the insects to come to the surface to die.

One gallon **Kil-Worm** makes fifty gallons of liquid.

In order to produce an insecticide that will effectually destroy these pestiferous insects and at the same time not injure grass or plants is the result of much scientific study and is not a hastily compounded concoction, just gotten up to sell. All we ask is a trial.

RHUBARB ROOTS (For Forcing)

With hardly any effort a supply of fresh Rhubarb may be had all winter. It can be grown in boxes in a cool cellar (where it cannot freeze) or under greenhouse benches, or in cold frames or pits. So that it may mature quickly and force easily, subject the roots to a slight freezing before they are planted. Put plenty of fresh horse manure in the bottom wherever they are planted. We offer immense clumps. 20c. each; per doz., \$2.00; \$3.75 for 25; 100 for \$13.50.

We can also supply Rhubarb Roots one year old for outdoor planting. \$1.00 per doz.; 100 for \$6.00.

**ASPARAGUS ROOTS (For Forcing)**

(Ready in October)

We have some very large *five year old roots* which have been especially selected for this purpose. Asparagus can be forced readily in boxes under greenhouse benches, or in almost any out of the way place where there is bottom heat. They like plenty of moisture after they have started. The roots will produce spikes about six weeks after planting. It is advisable to subject them to a slight freezing before planting so they will force more readily. Extra large clumps: Each, 25c.; \$2.50 per doz.; per 100, \$18.50.

CAMPBELL'S SULPHUR VAPORIZER

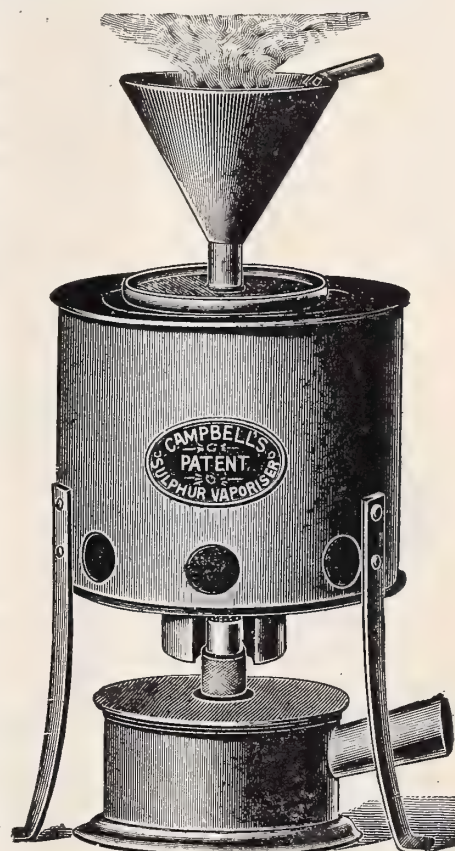

This apparatus is designed to safely vaporize sulphur in greenhouses; to kill mildew and other fungus diseases affecting roses, vines, cucumbers, tomatoes, chrysanthemums, strawberries, peaches, and, in fact, any plant; also destroys red spider infesting vines, crotons, asparagus, fern and other plants.

The No. 2 Vaporizer, when fully charged, will vaporize six ounces of sulphur, which is sufficient to kill all mildew in a house containing 10,000 cubic feet. After an operation every particle of foliage is covered with a layer of sulphur, so finely divided and evenly distributed that it is practically imperceptible to the naked eye.

No. 1—capacity, 3 ounces of sulphur; sufficient for a house of 5,000 cubic feet capacity. Price, \$5.50.

No. 2—capacity, 6 ounces of sulphur; sufficient for a house of 10,000 cubic feet capacity. Price, \$7.75.

These vaporizers are made in a most thorough manner and will last for years.

**TESTIMONIAL**

Hatboro, Pa.
Regarding the Sulphur Vaporizer purchased from you I have to say that it is very satisfactory and I can recommend it highly.

EUGENE WEISS, Rose Grower.

500 Supplied at 1000 Rates

Sizes and shapes as adopted and recommended by the Society of American Florists, at their convention in New York City, August 23, 1888. These pots are full inside measurement, height and width, which makes them at least one size larger than by the old way of measuring. Destroy all previous lists of RIM POTS, as the sizes and prices are all changed.

All our Standard Pots from 7-inch and above are provided with our patent Excelsior bottom, which insures Perfect Drainage.

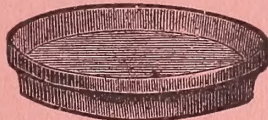

ADVANTAGES OF STANDARD FLOWER POTS

First—Uniform sizes throughout the country.
Second—Breakage is not one-half as great as in other pots, the deep rim protecting them from any ordinary hard usage.
Third—The foot keeps the pot up from the bench, so that it is impossible for hole to become clogged. The concave bottom and large hole insure perfect drainage.

NOW DAYS YOU CAN'T GET ALONG WITHOUT A GREENHOUSE

You see things are so different—everybody has become keenly interested in flowers; the kitchen garden enthusiast wants to make the hobby continuous; the nature-lover wants growing, comforting plant life and blooms the whole year through. There's only one way, and that is own your own greenhouse.

If you want to go pretty thoroughly into things, then various houses of goodly size are necessary, but if it is your idea to start in a small way and try it out first, then the two-compartment house is just the thing. It's long enough to admit of dividing it into two compartments, one for your general favorites, the other for vegetables; or to carnations or roses alone. You will want cold frames and hot-beds too, so send for both the Greenhouse Catalogue and "Two P's, the Pleasure and Profit of Cold Frames." After you have had the pleasure of looking through them, just write the particulars to our New York office, or if in a hurry, send direct to the Philadelphia Branch, 1211 Filbert street, and our representative can come to see you at once.

PHILADELPHIA, 1211 Filbert Street.

The "Burnham" Boilers heat our greenhouses in an economical, easy-to-run way.

This snug little house is about 66 feet long and 18 feet wide. You would be surprised to know the variety of things it grows. At the start it was only 33 feet 4 inches long, and this spring we added another compartment the same size, for carnations. It's easy enough to enlarge our houses any time you want to.

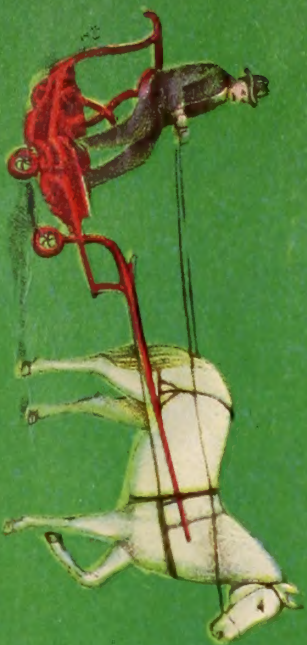

A little inside information about the "Burnham." You can see from its construction that the water will absorb heat like a sponge.
